

# Make your business unstoppable

Unpredictable is the one thing in life you can predict. Extreme weather, natural disasters, health emergencies and local unrest can all erupt with little or no warning. Then you're up against travel bans, flight restrictions and no-go zones. But when you work with a global network of offices, suppliers, clients and customers, having one area out of action for even the smallest period is not good for business.

One thing you can rely on is our global network. And with a suite of collaboration solutions running on it, you'll be able to work effectively wherever you are – whatever life throws at you.

The key to keeping your organisation running smoothly is having a seamless, integrated communications platform.

One that you can access securely from anywhere – so people don't need to be in the office to do business.

Our business contingency plan essentials will provide you with everything you need for a virtual office, including:

**1**  
**Faster and more flexible collaboration with Webex Meetings**

**2**  
**Anywhere, anytime phone meetings with BT MeetMe**

**3**  
**Secure remote access to your corporate resources with One Mobile**

**4**  
**BT Managed Event Premium Services to make big announcements a breeze**

This means people can call, meet, share screens and documents and access business applications securely from any device. And to make them unstoppable from day one, our User Adoption team are on standby to help people get the most out of any new collaboration tools.

## Get 50% off Webex Meetings for 250 users

If you're under pressure to restrict travel or increase home working, our collaboration portfolio is ideal. And right now you can get over 50% off the listed Named User Licence price for Webex Meetings. Just pick up to 250 users who'll benefit from our stunning collaboration solution.

## Sign up before 31 March 2020 and get free 1:1 coaching\*

Get your 250 chosen users up and running quickly and painlessly. Sign-up for a minimum of 250 Webex Named User Flex licences and we'll help them get started with free access to the user coaching desk for up to 1 month.

# Making it easier and simpler to work better together

Here's how our communications tools work together:

## 1. Faster and more flexible collaboration

A more connected workplace reduces costs and improves productivity. Webex Meetings lets you communicate one-to-one or company wide, simply, reliably and securely. Everyone in the company gets a great user experience and the information they need, wherever they are, whatever device they're using.

### With Webex Meetings you get:

- cloud-based access to Cisco's Webex platform
- video, document, application and screen sharing
- whiteboarding, recording and annotation features
- integration with productivity tools from Microsoft, Google etc

## 2. Meet over the phone, from anywhere, anytime

No need to book and no last minute hassle. BT MeetMe meetings can be started in the time it takes you to dial in. It's easy to use, and available at any time, every day of the year. All you need is a telephone and keypad, fixed or mobile.

### With BT MeetMe you can:

- invite people from over 70 different countries
- let people dial in using local or toll-free numbers
- enjoy an 'always on' service, so you don't always have to schedule a call
- lock your meetings so no one else can join
- mute participants to reduce any background noise
- instantly record by dialling \*8.

## Power your unified communications adoption

There's no two ways about it, greater collaboration leads to greater business success. And our User Adoption team will help make sure you make the most of new ways to work.

We'll assess your environment, audience and what you want the technology to deliver. Then we'll help you build and roll out a tailored adoption plan for your organisation.

Lastly, we'll make sure your people have the knowledge and skills to use your new collaboration tools with confidence.

## 3. Secure remote access to your corporate network

With One Mobile secure access, your people, contractors or any third party can securely connect to your corporate resources, wherever they are, from virtually any device. As a simple-to-use secure, cloud service, it replaces on-site gateways with gateway software in our cloud, your data centre, or even a public cloud like Azure and AWS.

### One Mobile secure access means:

- increased remote user productivity
- minimal capital outlay
- a simple monthly fee
- your existing in-house access platforms can be used to minimise costs.

## 4. Make big announcements a breeze

Larger, or high profile meetings need careful planning. With BT Managed Event Premium Services you have an expert Event Team on hand to help you before, during and after your event. It's ideal for sales kick-off meetings, internal announcements, global financial reviews, investor and analyst relations, product launches, and training courses.

### BT Managed Event Premium Services includes:

- a meeting coordinator to help you manage everything
- a unique passcode for the chairperson and participants for each meeting
- automated dial-in for fast access
- management of Q&A sessions and voting on questions
- event recording and replay over phone or web
- transcription to produce a text version of the meeting.

## Why work with us?

We'll manage your meeting solution across the enterprise. We'll integrate it into a global voice network to give a choice of secure connectivity, and into your chosen applications and existing video estate. We can even extend the experience to your meeting rooms and spaces by delivering, installing and onboarding video kit – so you get better collaboration throughout the entire business.

### We'll also give you:

- **a great experience** – meetings connected into our global voice network for maximum quality and coverage
- **a global service** – 24/7 support in five languages, including end-to-end experience monitoring
- **faster take-up** – we'll set you up and manage the switchover and behaviour changes needed to adopt the new solution quickly.
