Business outcomes from working with BT and NetApp

Reduce total cost of ownership

Cloud tiering plus NetApp efficiencies mean lower cloud consumption, ingress and egress costs.

Minimise risk

We can offer SLAs for mission-critical cloud workloads and protect your data from data loss and ransomware; managed by BT.

Optimise performance

Better performance in the public cloud guaranteed for mission-critical workloads.

Avoid cloud lock-in

No need for re-architecting or data conversion.

Get seamless connectivity to every major cloud provider across the globe

Cloud. Multi-cloud. Hybrid cloud. Amazon, Microsoft, Google... using the NetApp Data Fabric within the BT network, you can build a custom hybrid cloud solution that's inherently secure, fully managed, optimised and cost-effective.

Ready in days

Connectivity to every major global cloud provider means you get up and running fast.

Designed for growth

Simpler migration and enhanced agility, availability, and scalability mean you can digitalise and go-to-market faster.

Always future-proof

With no cloud lock-in, create a hybrid cloud that makes the most of the data so you're always future-ready.

AstraZeneca drives innovation with NetApp

“We needed a hybrid, multi-cloud data fabric to move data to any cloud from any cloud.”

Scott Hunter
Global Infrastructure Services Director
AstraZeneca

- Created a custom AstraZeneca cloud.
- Simplified access to large volumes of data.
- Built a flexible, future-proof data strategy.

Build your cloud, your way

Our managed services take care of your complex application migration, in your data centre, the BT data centre, and across hybrid cloud. It's all about building your cloud, your way.

DreamWorks brings stories to life with NetApp

“We don't make films – we create data. Technology is our paintbrush. File services and storage is our factory floor.”

Skottie Miller
Technology Fellow, DreamWorks

- Seamless data management
- Best speeds and lowest latency
- Future-proof infrastructure that can cope with new demands

Why BT and NetApp?

‘**Very Strong**’ in GlobalData's Data Centre and Cloud Services Product Assessment Report, 2020

IDC Hybrid Cloud **Key Player**
The data authority for hybrid cloud

5

We connect securely to 5 different types of cloud

7

We connect to 7 of the leading global cloud providers

10+

years of partnership working in this field

180

BT is a global company with a presence in over 180 countries
