

# Getting started with BT Managed Event Streaming

## List of features available:

- **Slides:** Load and advance PowerPoint slides during the presentation.
- **Media Files:** Load and play a clip during a live presentation, i.e. mp3 or .mp4 file.
- **Chapters:** Display a 'table of contents' during the archive period of your event.
- **Resource list:** Enables participants to download documents from a window within your event or access URLs or podcasts.
- **Contact us:** An easy means for viewers to contact you via an email address.
- **Questions and Answers:** Allow viewers to see answers from the presenter / moderator.
- **Polling:** Create an interactive poll with participants. Results may be shared with participants, or hidden.
- **Event moderator:** Support from a BT Event Manager to advance the slides and manage the collaboration activity during the event.

## Things you need to know to book:

- BT billing number (EB number)?
- Cost Centre?
- Streaming package required: Live video or live audio only event?
- Streaming production required: On-site or remote?
- Event details: Name, date, time?
- Approx. number of webcast viewers?
- Whether password to access streaming event is required?
- Audience registration page details?
- Player page options. Previous design or new?
