

Access combined call history, unified voicemail, and presence sync.

Synchronised call history and voicemails

1. View combined call history in your native dialler or the Teams app in one place without juggling between two platforms.

2. Access voicemails from all Teams endpoints with transcriptions to make it easy to read and respond to messages.

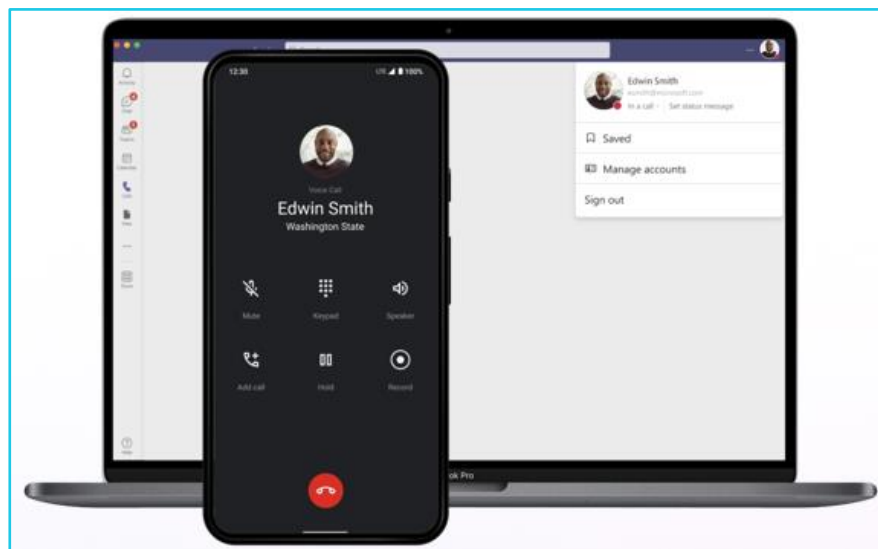

Unified presence

1. Whilst on calls from your native dialler and the Teams app, your availability status will be changed to show colleagues whether you are available or not.
