A note on 'you'

'You' and 'your' mean the Customer.

Words defined in the General Terms

Words that are capitalised but have not been defined in this Schedule have the meanings given to them in the General Terms.

Part A – The BT Managed SIEM Security Service

1 Service Summary

- 1.1 BT will provide you with a security information and event management service, supporting threat detection, compliance reporting, and incident response and investigation by collection and analysis of historical data across a variety of sources ("**BT Managed SIEM Security Service**").
- 1.2 The BT Managed SIEM Security Service may not be available in all countries.

2 Graded Service Tiers

- 2.1 You will choose one of the Graded Service Tiers, some of the features of which are set out in the table below, to use with your BT Managed SIEM Security Service as set out in any applicable Order:

	Foundation	Foundation Plus	Premium
Initial Setup of the BT Managed SIEM Security Service in accordance with Paragraph 2.4			
SIEM Appliance Delivery Model			
Customer Purchase	✓	✓	✓
Customer Owned	✓	✓	✓
BT Takeover	x	✓	✓
Cloud SIEM	✓	✓	✓
Custom Rules			
SOM	Review and sign off of Custom Rules	Named	Named
Number of additional Custom Rules	3	15	30
BT Project Manager			
BT Project Manager assigned for Initial Setup and Controlled Deployment	Named available at additional Charge	Named	Named & potential Site visit depending on location
Controlled Deployment of the BT Managed SIEM Security Service in accordance with Paragraph 2.5			
Controlled Deployment Custom Rules Optimisation Period	Up to 90 Business Days	Up to 90 Business Days	Up to 90 Business Days
Acceptance Tests	During Controlled Deployment Custom Rules Optimisation Period	During Controlled Deployment Custom Rules Optimisation Period	During Controlled Deployment Custom Rules Optimisation Period
BT & Customer joint Custom Rules test and tune	x	✓	✓
Monitoring and Management of the BT Managed SIEM Security Service in accordance with Paragraph 2.6			
Technical Incidents and Fault Management			
Service Desk 24x7x365	✓	✓	✓
Security Operations Centre (BT SOC)	BT selects appropriate BT SOC	BT selects appropriate BT SOC	Customer can request Regional BT SOC

BT Managed SIEM Security Service Schedule

	Foundation	Foundation Plus	Premium
Service Desk language	English (unless agreed otherwise)	Includes optional multi language support at Service Desk	Includes optional multi language support at Service Desk
Proactive Monitoring			
Monitor for impending issues that may affect the BT Security Managed SIEM Service	✓	✓	✓
Log Capture in respect of the BT Cloud SIEM Delivery Model			
Log availability on request included in the Charge	90 days	90 days	90 days
Continuous Improvement of the BT Managed SIEM Security Service in accordance with Paragraph 2.7			
BT Security Managed SIEM Service reviews	6 monthly	Monthly	At intervals agreed by both of us but not less than monthly
Automatic Vulnerability scan identifies new physical and virtual Vulnerabilities	CVSS score	CVSS score	CVSS score
Vulnerability Patch included in the Charge (CVSS score)	9 and above	7 and above	5 and above
Change Management	via Security Portal	Security Portal or direct to SOM	Security Portal or direct to SOM

- 2.2 The provisions in respect of Foundation will apply to Foundation Plus and Premium and the provisions of Foundation Plus will apply to Premium. If there is a conflict between the provisions of the Graded Service Tiers, the order of priority of the relevant provisions is:
- (a) (a) Premium;
 - (b) (b) Foundation Plus; and
 - (c) (c) Foundation.

2.3 Delivery Model

You will select one of the Delivery Model options set out below, as set out in any applicable Order:

2.3.1 Customer Purchase Delivery Model

- (a) BT will provide you with the option to purchase from a range of SIEM Appliances that BT will, or will procure that the applicable Supplier will, install and maintain on your Site(s), as set out in any applicable Order.
- (b) The functionality of such SIEM Appliances (which may vary depending on Supplier), is set out in the Supplier Annex attached to the applicable Order and may include:
 - (i) Event Collection – real time collection of Event Log Data from the monitored External Data Source;
 - (ii) Event Normalisation – mapping of Event Log Data from different External Data Sources to a SIEM specific format that permits more effective cross correlation;
 - (iii) Event Correlation – immediate analysis of normalised Event Log Data, to track threats, monitor User activity and track related transactions and data access Events;
 - (iv) Log Management – collection, indexation and storage of Event Log Data from monitored External Data Sources;
 - (v) Reporting – capability to search and report on Event Log Data, using Custom Rules;
 - (vi) User Monitoring – enabling definition of User and resource access policies, exception identification and reporting;
 - (vii) Application Monitoring – enabling integration of the BT Managed SIEM Security Service with applications defining Log formats from unsupported External Data Sources, including User context;
 - (viii) Presentation – enabling the presentation of Events and Security Incidents in real time via a Security Portal or dashboard; and
 - (ix) Information Feeds – enabling the integration of the SIEM Appliances with regularly updated Supplier feeds providing up-to-date security information.

2.3.2 Customer Owned Delivery Model

- (a) At your request, BT will deliver the BT Managed SIEM Security Service on Customer Equipment that you provide to BT's specification, as set out in any applicable Order, in which case BT will install the SIEM Appliances on the Customer Equipment as Virtual Appliances.
- (b) The Customer Owned Delivery Model is offered at BT's sole discretion, subject to satisfactory assessment of the proposed Customer Equipment as suitable for use with the BT Managed SIEM Security Service and SIEM Appliances. This assessment will be carried out once you have provided the required information as set out in, and in accordance with, Paragraph 7.3.

2.3.3 BT Takeover Delivery Model

- (a) At your request, BT will deliver the BT Managed SIEM Security Service utilising fully installed, pre-configured and operational Customer Equipment, as set out in any applicable Order, in which case the SIEM Appliances will be installed on the Customer Equipment as Virtual Appliances.
- (b) The BT Takeover Delivery Model is offered at BT's sole discretion subject to an assessment by BT that the Customer Equipment is suitable for use with the BT Managed SIEM Security Service. This assessment will be carried out once you have provided the information required as set out in Paragraph 7.3 and BT will provide written confirmation that BT is able to support the Customer Equipment.
- (c) The BT Takeover Delivery Model is not available at Foundation.

2.3.4 BT Cloud SIEM Delivery Model

- (a) BT will provide you with a cloud hosted BT Managed SIEM Security Service that will include:
 - (i) a cloud based Event Correlation engine that will correlate incoming Events and categorise each Event according to its severity for inspection by the BT SOC;
 - (ii) one or more BT Virtual Sentries or Hardware Sentries, as set out in any applicable Order, for real time collection of Event Log Data from the monitored External Data Sources;
 - (iii) Cloud Log Management providing on-line Log retention for up to 90 calendar days; and
 - (iv) Strong Access Control through role-based access features and two factor User authentication.

2.4 Initial Setup

BT will facilitate the setup and delivery of the BT Managed SIEM Security Service in accordance with the Delivery Model and Graded Service Tier selected by you, as set out in the Order.

2.4.1 Foundation

- (a) BT will provide you with access to the Security Portal for up to a maximum of five Users.
- (b) BT will liaise with you and third party suppliers of Customer Equipment that BT manages on your behalf in respect of the BT Managed SIEM Security Service, if applicable.
- (c) You may request that BT, at an additional Charge:
 - (i) appoints a named BT Project Manager to be your single point of contact during the Initial Setup. The BT Project Manager will undertake any activity remotely and will not visit your Site; or
 - (ii) provide a named BT Project Manager who will be available to attend meetings at your Site depending on your location for the duration of the Initial Setup.
- (d) **Custom Rule Design and Deployment**
 - (i) BT will provide you with the Standard Default Rule Set.
 - (ii) You will select three additional Custom Rules that you have agreed with BT when you place the Order and ensure that the Custom Rules you select meet your requirements. Any additional Custom Rules will be charged, in addition, on a time and materials basis.
 - (iii) If you have requested changes to your Custom Rules during the Controlled Deployment Custom Rules Optimisation Period, you will follow the Custom Rules Change Management Process set out in Paragraph 2.7.3.
 - (iv) BT may provide you with Professional Services at an additional Charge, at your request, to assist you in the creation of your Custom Rules.
 - (v) Should BT elect to standardise a Custom Rule requested by you, the rule will be added to the Standard Default Rule Set, made available to BT's wider customer base, in which case the rule will cease to count towards your Custom Rules allocation and no additional Charges will apply. In such circumstances, BT will own the Intellectual Property Rights in relation to the rule.
 - (vi) Subject to receiving acceptable information from the External Data Sources, BT will configure the SIEM Appliance(s) to implement the Custom Rules agreed with you and in accordance with Paragraph 8.2.
 - (vii) Unless otherwise set out in any applicable Order, the Custom Rule Design and Deployment activities set out in this Paragraph 2.4.1 (d) will be undertaken remotely by BT.

- (viii) The SOM will work with you and the BT Project Manager in respect of the Custom Rule Design and Deployment.
- (ix) BT may apply additional Charges if work cannot be undertaken remotely and BT requires to attend the Site(s).

(e) **Data Source Connection**

- (i) BT will configure the SIEM Appliance(s) to receive Event Log Data from the External Data Sources agreed with you, and set out in the Data Capture Form attached to the applicable Order.
- (ii) You will configure the External Data Sources to send Logs to the SIEM Appliance(s) or provide BT with the requisite details and consents to enable BT to configure the External Data Sources directly, as set out in any applicable Order.
- (iii) You will connect the External Data Sources to the SIEM Appliance(s) unless BT provides the data source in which case BT will connect the External Data Source to the SIEM Appliance(s).
- (iv) BT may at your request, connect additional External Data Sources, to the SIEM Appliance(s) and this will be charged, in addition, on a time and material basis, unless otherwise set out in any applicable Order.
- (v) BT will not be liable for any failure of the BT Managed SIEM Security Service to process Logs sent to the SIEM Appliance(s) from External Data Sources not set out in the Data Capture Form or otherwise set out in any applicable Order.
- (vi) BT will only undertake threat correlation or threat monitoring from External Data Sources that are set out in the Data Capture Form.
- (vii) BT may apply additional Charges if work cannot be undertaken remotely and requires BT to attend the Site(s).

2.4.2 Foundation Plus

- (a) BT will appoint a named BT Project Manager to be your single point of contact during the Initial Setup and Controlled Deployment. The BT Project Manager will undertake any activity remotely and will not visit your Site.
- (b) You may request that BT, at an additional Charge, provides a named BT Project Manager who will be available to attend meetings at your Site depending on your location for the duration of the Initial Setup and Controlled Deployment.
- (c) Custom Rule Design and Deployment
 - (i) You will select 15 additional Custom Rules that you have agreed with BT when you place the Order and ensure that the Custom Rules you select meet your requirements. Any additional Custom Rules will be charged, in addition, on a time and materials basis.
 - (ii) BT will assign a SOM to assist you with the configuration of the BT Managed SIEM Security Service in accordance with the agreed Custom Rules.

2.4.3 Premium

- (a) BT will provide a named BT Project Manager who will be available to attend meetings at your Site depending on your location for the duration of the Initial Setup and Controlled Deployment.
- (b) Custom Rule Design and Deployment
 - (i) You will select 30 additional Custom Rules that you have agreed with BT when you place the Order and ensure that the Custom Rules you select meet your requirements. Any additional Custom Rules will be charged, in addition, on a time and materials basis.
 - (ii) You will provide a project manager and technical team to work with BT during the Controlled Deployment Custom Rules Optimisation Period.
- (c) BT will provide further policies tailored to your specific requirements to use as your Custom Rules.

2.5 Controlled Deployment

BT will work with you during the Controlled Deployment Custom Rules Optimisation Period.

2.5.1 Foundation

- (a) The provisions of Paragraph 9.2 will apply.
- (b) BT will provide you with User Guides.
- (c) You will comply with the User Guides.
- (d) Both of us will direct all communication to the other via the Security Portal.
- (e) If the Controlled Deployment Custom Rules Optimisation Period is extended for any reason beyond 90 days from the date you receive Notice from BT in accordance with Paragraph 8.2.5, BT may apply additional Charges.

2.5.2 Foundation Plus

- (a) **Customer Training**
 - (i) BT will deliver training, via Webex, for the maximum number of permitted concurrent Users as set out in Paragraph 2.4.1 (a).
 - (ii) Additional training may be offered at BT's sole discretion.
- (b) You may communicate with BT directly via the SOM or the Security Portal.

2.6 Monitoring and Management

The Monitoring and Management will commence on the Service Start Date.

2.6.1 Foundation

- (a) **Proactive Monitoring**
 - (i) BT will monitor the performance of the BT Managed SIEM Security Service at intervals set by BT and, where possible, provide advance warning to you through the Security Portal of impending issues that may affect the BT Managed SIEM Security Service and that BT identifies as a result of the monitoring. BT may not identify all impending issues.
 - (ii) You are responsible for resolving the issues that BT provides you advance warning of in Paragraph 2.6.1 (a) (i).
 - (iii) You will ensure that you or third parties, as required, configure routing/permissions on platforms or Enabling Services to allow BT to carry out the monitoring.
- (b) **SIEM Appliances**

BT will:

 - (i) proactively monitor and manage the SIEM Appliances 24x7x365;
 - (ii) take action to rectify Technical Incidents with the monitored SIEM Appliance(s); and
 - (iii) attempt to rectify any issues remotely and if remote rectification is not possible, BT will, or will procure that the applicable Supplier will, attend your Site and repair or replace, at BT's option, the faulty SIEM Appliance(s).
- (c) **Licence Management and SIEM Appliance Upgrades**
 - (i) BT will arrange applicable licencing and support agreements for the SIEM Appliances and SIEM Software.
 - (ii) Where SIEM Appliances are virtual SIEM Appliances that are located on your or a third party platform, BT will not provide licences or vendor support agreements for the host platform.
 - (iii) Prior to the end of the contract term for a licencing or support agreement, unless you give BT Notice of an intention to terminate in accordance with the provisions of the licencing or support agreement, BT will renew the licencing or support agreement for a period of one year or as agreed by both of us or for any other period that is appropriate to the nature of the applicable licencing or support agreement.
 - (iv) If you cancel or terminate the applicable licencing or support agreement during their contract term or renewal period, you will pay any costs that are incurred by BT including any charges reasonably incurred by BT from a supplier as a result of the cancellation or termination. If you have paid the charges or fees for the applicable licence or support agreement in advance, you may not be entitled to a refund of the charges for the remaining months of the contract term or renewal period.
 - (v) BT will validate that you have ordered the correct number of licences to serve your requirements for the BT Managed SIEM Security Service in accordance with terms of the licencing and vendor support agreements and information provided by you and:
 - i. if BT determines that you have not ordered sufficient licences for the BT Managed SIEM Security Service, BT will notify you and you will seek to rectify the situation within 30 days of the date of notification;
 - ii. if the situation is not resolved within this time, BT may suspend the BT Managed SIEM Security Service and subsequently terminate the BT Managed SIEM Security Service in accordance with Clause 18 of the General Terms; and
 - iii. BT is not liable for unknown breaches of the licencing and vendor support agreements, where BT is acting on information provided by you.
 - (vi) BT may from time to time upgrade any Software or firmware on the SIEM Appliances to ensure that they remain within the Supplier's supported software specification. The dates and times of any Software or firmware upgrades of the SIEM Appliances will be coordinated with you in advance.
 - (vii) You will confirm to BT any change in the number of Users or SIEM Appliances requiring licences as part of the BT Managed SIEM Security Service.

(d) **Capacity Management**

- (i) BT will, on a quarterly basis, monitor the ongoing performance (e.g. CPU memory) of SIEM Appliances and assess their ability to process the volume of EPS that they receive.
- (ii) If BT identifies that changes in the volume of EPS could result in the SIEM Appliances being unable to process the EPS effectively, or BT identifies that the volume of EPS is higher than that agreed, BT will contact you to discuss options to upgrade the SIEM Appliances or make changes to the data that is collected.
- (iii) If you do not agree to upgrade the SIEM Appliances or make changes to the data collected, following advice from BT in accordance with Paragraph 2.6.1(d)(ii), BT will not be liable for any performance issues of the BT Managed SIEM Security Service and will not be liable under any applicable Service Level.

(e) **Maintenance**

- (i) BT will maintain and update your SIEM Appliance(s) on a regular basis.
- (ii) In the event of a Technical Incident, BT will raise the necessary support requests for the affected SIEM Appliance(s), on your behalf.
- (iii) If you become aware, or BT notifies you, of a Technical Incident on Customer Equipment on which Virtual SIEM Appliance(s) are installed, you will raise the necessary support requests and advise BT when the Technical Incident has been rectified.

(f) **Technical Incident and Fault Management**

- (i) You will notify all Technical Incidents to the Service Desk via the Security Portal or directly to the Service Desk if agreed by BT.
- (ii) All communications with the Service Desk will be in English.
- (iii) The Service Desk that will action the Technical Incident notifications is available 24x7x365 and is staffed by security trained professionals.
- (iv) BT will give you a Ticket.
- (v) BT will assess the Technical Incident in accordance with the criteria set out in the table below:

Priority	Description
P1	Serious impact and Technical Incident cannot be circumvented, typically where the BT Managed SIEM Security Service is completely down / unavailable; for example: your Site is isolated or there is a complete loss of service to a Site or critical business functions are prevented from operating.
P2	Large impact on a portion of the BT Managed SIEM Security Service and cannot be circumvented, causes significant loss of the BT Managed SIEM Security Service, but the impacted business function is not halted; for example: there is a complete loss of primary link and the BT backup link (if provided) is invoked or business functions are disrupted but not prevented from operating.
P3	Small impact on the BT Managed SIEM Security Service or where a single User or component is affected and it causes some impact to your business; for example there is an intermittent or occasional disturbance which does not have a major impact on the BT Managed SIEM Security Service or where a temporary work around has been provided.
P4	Minor or intermittent impact to a non-operational element of the BT Managed SIEM Security Service; for example a temporary failure of reporting or billing.
P5	Incident has no direct impact on the BT Managed SIEM Security Service. Records normally kept for Technical Incidents are used for information purposes. Example: to track upgrades, for planned outages or for enquiries as well as customer provoked Incidents.

- (vi) BT will review the status of the Technical Incident and amend the priority level assigned initially if necessary.
- (vii) BT will keep you informed throughout the course of the Technical Incident resolution at regular intervals by posting updates on the Security Portal or via automated e-mails to the Customer Contact in accordance with Paragraph 10.1.
- (viii) BT will inform you when it believes the Technical Incident is cleared and will close the Ticket when:
 - i. you confirm that the Technical Incident is cleared within 24 hours after having been informed; or
 - ii. BT has attempted unsuccessfully to contact you, in the way agreed between both of us in relation to the Technical Incident, and you have not responded within 24 hours following BT's attempt to contact you.
- (ix) If you confirm that the Technical Incident is not cleared within 24 hours after having been informed, the Ticket will remain open, and BT will continue to work to resolve the Technical Incident.
- (x) Where BT becomes aware of a Technical Incident, Paragraphs 2.6.1 (f)(iv) to 2.6.1 (f)(ix) will apply.
- (g) **Missing Log Source Monitoring and Reporting**
 - (i) BT will notify you, as soon as possible, if one or more of your External Data Sources, fitted with a Silent Device Alarm, fails to forward Event Log Data to the BT Managed SIEM Security Service.
 - (ii) BT will investigate the Technical Incident to determine if the SIEM Appliance collecting the data is working and functioning correctly. If the SIEM Appliance is functioning correctly, BT will advise you of the External Data Sources that have stopped forwarding and you will investigate and restart the forwarding of the Event Log Data to the SIEM Appliance.
- (h) **Cloud Log Management**
 - (i) If you have selected the BT Cloud SIEM Delivery Model, as set out in Paragraph 2.3.4:
 - i. the default online retention for Log storage will be 90 days;
 - ii. you may search and view the last 14 days of Logs; and
 - iii. you may request via the SOM that Logs older than 14 days be made available for viewing and search.
- (i) **Event Correlation**
 - (i) BT will correlate incoming Events and categorise each Event according to its severity for inspection by the BT SOC.
 - (ii) BT will correlate Events in accordance with the three Custom Rules selected by you, and set out in any applicable Order.
 - (iii) BT may, at its sole discretion, agree to use additional Custom Rules in the correlation of Event Log Data, as set out in any applicable Order.
 - (iv) BT may apply additional Charges if you exceed the three Custom Rules.
- (j) **Security Event Management**

BT will:

 - (i) analyse Event data generated by the Event Correlation engine;
 - (ii) make an assessment of appropriate actions to take; and
 - (iii) if necessary, alert you via email to any potential threats.
- (k) **Reports**
 - (i) BT will provide you with reporting for the BT Managed SIEM Security Service via the Security Portal in accordance with this Paragraph 2.6.1 (k) including:
 - i. a dashboard tailored to the BT Managed SIEM Security Service; and
 - ii. inventory information BT deems appropriate.
 - (ii) BT will provide access to reports on Event activity, via the Security Portal, so that common threat categories such as attack types and attack hosts can be identified.
- (l) **Security Incident Management**
 - (i) **Case Registration**
 - i. BT will notify you of possible Security Incidents, including details of the relevant underlying Event and threat intelligence.
 - ii. BT will raise a Case for each Security Incident that is notified to you.
 - (ii) **Case and Security Incident Management**

Where a Case has been raised by BT in respect of any Security Incident, the BT SOC will contact your nominated customer service teams to:

- i. advise of any necessary remedial action they need to take; and
 - ii. confirm that they have completed any necessary remedial action,
- following which BT will close the Case. If your nominated customer service team does not take the necessary remedial action, BT is not responsible for the ongoing effects of the Security Incident.

2.6.2 Foundation Plus

(a) Proactive Monitoring

- (i) Both of us will agree a process for BT to contact you when it identifies an issue that impacts the BT Managed SIEM Security Service.
- (ii) BT will use historic and current metrics captured via the monitoring of the BT Managed SIEM Security Service to forecast issues that may impact the performance of the BT Managed SIEM Security Service and make recommendations to you either through reporting on the Security Portal or by e-mail, as agreed by you.

(b) Licence Management and SIEM Appliance Upgrades

- (i) Where you select the BT Takeover Delivery Model for the BT Managed SIEM Security Service, you will:
 - i. provide access to BT to any licence user centre, existing vendor support agreements, authorisation code(s) or other information required by specific vendors and provided at the time of provision for registering products;
 - ii. provide BT read and write access to your own vendor portals for licence and support accounts where there is an operational requirement including raising a vendor support request; and
 - iii. pay BT any vendor charges to reinstate any lapsed software licence agreements or vendor support agreements.

(c) Technical Incident and Fault Management

- (i) You will notify all Technical Incidents to the Service Desk directly or via the Security Portal.
- (ii) If you notify the Technical Incident to the Service Desk directly you will have the option of communicating in the languages agreed with BT. If the Service Desk is required to escalate the Technical Incident within BT or to a third party vendor then you may be required to communicate in English only.
- (iii) If you have selected the Customer Owned Delivery Model or the BT Takeover Delivery Model and there is a fault in the Customer Equipment, BT will raise the necessary support requests on your behalf.

(d) Event Correlation

- (i) BT will correlate Events in accordance with the 15 Custom Rules selected by you, and set out in any applicable order.
- (ii) BT may apply additional Charges if you exceed the 15 Custom Rules.

(e) Reports and Security Incident Management

(i) Case Registration

- i. BT will notify you of possible Security Incidents, including details of the relevant underlying Event and threat intelligence.
- ii. Mitigation Planning: the SOM will provide you with guidance on preventing the recurrence of Security Incidents. This advice may include:
 - (a) advising on malware related to a botnet, known to use command and control servers, that your devices have attempted to connect to; and
 - (b) advising on blocking certain defined network traffic or specific Twitter feeds, at firewall, proxy, or other appropriate control point.

2.6.3 Premium

(a) Technical Incident and Fault Management

- (i) You will agree with BT whether you report Incidents to the SOM directly or via the Security Portal or to the regional Security Operations Centre.
- (ii) You may request the regional Security Operations Centre but BT is not obliged to accept your request.

(b) Event Correlation

- (i) BT will correlate Events in accordance with the 30 Custom Rules selected by you, and set out in any applicable Order.
 - (ii) BT may apply additional Charges if you exceed the 30 Custom Rules.
- (c) **Reports and Security Incident Management**
- (i) **Case Registration**
 - i. BT will notify you of possible Security Incidents, including details of the relevant underlying Event and threat intelligence.
 - ii. The SOM will provide RCA Support and Ad Hoc Post Security Incident Activity Support in relation to all Priority 1 Security Incidents.

2.7 Continuous Improvement

2.7.1 Reviews

(a) Foundation

- (i) The SOM will carry out a review six monthly as follows:
 - i. a BT Managed SIEM Security Service review, focussing on the performance of the BT Managed SIEM Security Service; and
 - ii. an end of life review on an ongoing basis. The SOM will provide you with a report summarising the SIEM Appliances, applications and software that are managed by BT on your behalf as part of the BT Managed SIEM Security Service that will go end of life within the following six months. The report will include SIEM Appliances, applications and software advised to you previously that are past end of life and that require immediate action by you.
- (ii) The SOM will provide you with a report on the review via the Security Portal.
- (iii) If requested by you and if agreed to by BT, both of us may hold a conference call to discuss the report.
- (iv) If BT has agreed to participate in a conference call you will ensure that any report the SOM provides you with will be reviewed by your suitably qualified personnel who are participating in the conference call prior to the conference call taking place.
- (v) You will take appropriate action to address issues as recommended by the SOM:
 - i. in respect of the BT Managed SIEM Security Service including implementing security improvements as agreed with the SOM or as advised by the SOM as your responsibility; and
 - ii. in respect of the end of life review or as set out in the end of life review report.

(b) Foundation Plus

- (i) The SOM will carry out a review monthly as follows:
 - i. a BT Managed SIEM Security Service review focussing on the performance of the BT Managed SIEM Security Service against Service Levels and Service Targets;
 - ii. a review of the effectiveness of the Custom Rules applied to your BT Managed SIEM Security Service and the need to fine tune or amend the Custom Rules; and
 - iii. an end of life review as set out in Paragraph 2.7.1 (a)(i)ii.
- (ii) In addition to taking the action set out in Paragraph 2.7.1 (a)(v), you will take appropriate action to address issues in respect of fine tuning or amending your Custom Rules as recommended by the SOM.

(c) Premium

- (i) The SOM will carry out a review at intervals agreed by both of us but not less than monthly as follows:
 - i. a BT Managed SIEM Security Service focussing on the performance of the BT Managed SIEM Security Service against Service Levels and Service Targets;
 - ii. a review of the effectiveness of the Custom Rules applied to your BT Managed SIEM Security Service and the need to fine tune or amend the Custom Rules; and
 - iii. an end of life review as set out in Paragraph 2.7.1 (a)(i)ii.
- (ii) The SOM will also carry out a six monthly Security Posture review. The SOM will create an action plan with the aim of improving your Security Posture;
- (iii) In addition to taking the action set out in Paragraph 2.7.1 (a)(v), you will take appropriate action to address issues in respect of fine tuning or amending your Custom Rules as recommended by the SOM.

2.7.2 Vulnerability Management and Patching of SIEM Appliances

- (a) BT will rank all Patch updates as priority ranking in accordance with the CVSS and aims to have the Patches ready for implementation as follows:

CVSS Score	Target notification to you that the Patch is available from vendor, BT has tested the Patch and the Patch is ready for implementation
0	Discretionary
1 – 3	Discretionary during next Patch cycle (3 – 6 months)
4 – 6	28 days maximum
7 – 10	14 days maximum

- (b) Vulnerability Management and Patching of SIEM Appliances will only be available while the SIEM Appliance is supported by the vendor.
- (c) All communications in respect of Vulnerability and Patching of SIEM Appliances will be through the Security Portal.

(d) **Foundation**

- (i) BT will not assess the configuration or contextual exposure of any SIEM Appliances to the Vulnerability.
- (ii) BT will use reasonable efforts to obtain a Patch for the Vulnerability from the SIEM Appliance vendor and will then test the Patch for implementation and BT's ability to roll-back the software to the level prior to implementing the Patch. Once testing is complete, BT will advise you that the Patch is available for implementing and provide additional information, where available, to support you in deciding whether to install the Patch or not.
- (iii) You will assess the suitability for deployment of the Patches that BT advises are available to address notified Vulnerabilities within your specific environment and for any post-implementation testing.
- (iv) BT may implement Patches with a High CVSS score or a Medium CVSS score, on your request, at an additional Charge.
- (v) BT will implement a Patch for a Vulnerability with a Critical CVSS score, subject to your agreement and also agreeing an implementation time slot with you.
- (vi) BT will provide a secure mechanism on the Security Portal for you to confirm your agreement to BT implementing a Patch that BT has recommended.
- (vii) BT will specify an implementation window for BT to implement the Patches which will be typically a weekly six hour window outside of Business Hours for the Site where the SIEM Appliance is situated.
- (viii) BT will apply the Patch in the specified implementation window and confirm to you via the Security Portal when the Patch has been implemented.
- (ix) BT will roll the Patch back upon your request in the event that you detect undesirable side-effects. Any activity by BT required to resolve issues resulting from the implementation of a Patch is not covered by the Vulnerability Management and Patching and BT will invoice you for reasonable additional Charges.
- (x) If you do not consent to accept and implement a Patch within 14 days of notification by BT of a recommended Patch, or if you request that an installed Patch is reversed out due to your specific undesirable side-effects, BT will be under no further obligation to provide further Vulnerability Management and Patching in respect of that Patch and will not have any liability for potential exposure should a threat subsequently exploit that related Vulnerability.

(e) **Foundation Plus**

- (i) BT will implement a Patch for a Vulnerability with a Critical CVSS score and a High CVSS score and latest stable variant of the vendor's general availability code, subject to your agreement and also agreeing an implementation time slot with you.
- (ii) BT may implement Patches with a Medium CVSS score, on your request, at an additional Charge.

(f) **Premium**

- (i) BT will implement a Patch for a Vulnerability with a Critical CVSS score, a High CVSS score and a Medium CVSS score and latest stable variant of the vendor's general availability code, subject to your agreement and also agreeing an implementation time slot with you.

- (ii) BT may implement Patches quicker than the implementation time set out in the table in Paragraph 2.7.2(a) based on your own perceived risk of the Vulnerability, on your request, at an additional Charge.
- (iii) As part of the testing carried out on the Patch for implementation under Paragraph 2.7.2(d)(ii)1(ii), BT will take into account your known infrastructure and specific SIEM Appliance features.
- (iv) BT will agree its test plan for the Patches with you.

2.7.3 Custom Rules Change Management Process

- (a) BT will implement changes to the Custom Rules in response to your request subject to the following process:
 - (i) the authorised Customer Contact will submit requests to change the Custom Rules through the Security Portal, providing sufficient detail and clear instructions as to any changes required;
 - (ii) BT will check each request for its complexity and assess whether the change should be completed via the Custom Rules Change Management Process or whether it requires to proceed in accordance with Clause 31 (Service Amendment) of the General Terms;
 - (iii) only changes to Custom Rules will be completed via the Custom Rules Change Management Process;
 - (iv) any change you request requiring physical changes to the BT Managed SIEM Security Service including SIEM Appliance upgrades, additional hardware or licences will proceed in accordance with Clause 31 (Service Amendment) of the General Terms; and
 - (v) BT may provide you with Professional Services at an additional Charge, at your request, to assist you in writing your change request.
- (b) **Foundation**
 - (i) BT will provide secure access to the Security Portal to all pre-agreed and authorised Customer Contacts to enable you to submit your change requests.
 - (ii) Simple Changes subject to the Reasonable Use Policy set out in Paragraph 2.7.3(b)(v) are included in the Charges.
 - (iii) Complex Change requests will proceed in accordance with Clause 31 (Service Amendment) of the General Terms and BT will charge you the cost of implementing Complex Changes.
 - (iv) BT will communicate the status of change requests via e-mail to the Customer Contact requesting the change and the status will be available also on the Security Portal for a period of six months.
 - (v) BT will apply the following "reasonable use" restrictions ("**Reasonable Use Policy**") for changes to the Custom Rules:
 - i. you will not raise Standard Change requests more frequently than:
 - a. six per month per SIEM Appliance in respect of Foundation;
 - b. eight per month per SIEM Appliance in respect of Foundation Plus; and
 - c. 10 per month per SIEM Appliance in respect of Premium;
 - ii. you will not raise Urgent Change requests more frequently than:
 - a. one per month per SIEM Appliance in respect of Foundation;
 - b. two per month per SIEM Appliance in respect of Foundation Plus; and
 - c. three per month per SIEM Appliance in respect of Premium.
 - iii. where BT's measurements show that change requests are being raised more frequently than as set out in Paragraphs 2.7.3(b)(v)i and 2.7.3(b)(v)ii, BT may, either:
 - a. aggregate your requests over a period of time, so that they may be implemented more efficiently. In this event there may be some implementation delays; or
 - b. review your requirements and agree with you an appropriate alternative implementation process and any associated charges.
 - (vi) You will not, and ensure that Users with access to the Security Portal do not submit any unauthorised changes.
 - (vii) BT will use reasonable endeavours to implement an Emergency Change as quickly as is reasonably practicable. BT may charge you the cost of implementing an Emergency Change.
 - (viii) BT may implement an Emergency Change without your approval.
 - (ix) You are deemed to have approved all changes to the Custom Rules that you submit to BT.

- (x) You are responsible for the impact of BT implementing the changes and BT is not liable for any consequences arising from the impact of the implementation of the changes.
- (c) **Foundation Plus**
 - (i) The authorised Customer Contact may submit requests to modify the Custom Rules either through the Security Portal or direct to the SOM.
- (d) **Premium**
 - i. BT will use reasonable endeavours to identify errors or potential unforeseen consequences of your requested Simple Changes and Complex Changes and advise you appropriately and will not be liable for any consequence arising from:
 - ii. your miss-specification of your security requirements in relation to the Custom Rules; or
 - iii. unforeseen consequences of a correctly specified and correctly implemented Custom Rule.

3 Service Options

BT will provide you with the following option ("**Service Option**") as set out in any applicable Order and in accordance with the details as set out in that Order:

- 3.1 High Availability Configuration (HAC)
 - 3.1.1 BT will provide High Availability Configuration (HAC) for one or more pairs of SIEM Appliances.
 - 3.1.2 As SIEM Appliances of identical specification may be required.
 - 3.1.3 BT may configure the SIEM Appliance pairs as Active-Active or Active-Passive, as set out in any applicable Order.
 - 3.1.4 HAC of SIEM Appliance pairs may require the SIEM Appliances to be located at the same Site and directly interconnected by a physical cable, as set out in any applicable Order.
 - 3.1.5 If a SIEM Appliance fails, the throughput performance of Active-Active SIEM Appliance pairs may be reduced, unless the paired SIEM Appliances each have the capacity to handle the full load independently.
- 3.2 Service Option may not be available in all countries or on all SIEM appliances.

4 Service Management Boundary

- 4.1 BT will provide and manage the BT Managed SIEM Security Service in accordance with Parts A, B and C of this Schedule and as set out in any applicable Order, ("**Service Management Boundary**").
- 4.2 BT will have no responsibility for the BT Managed SIEM Security Service outside the Service Management Boundary.
- 4.3 BT does not make any representations, whether express or implied, about whether the BT Managed SIEM Security Service will operate in combination with any Customer Equipment or other equipment and software.
- 4.4 Service Restrictions
 - 4.4.1 BT will not be liable if BT is unable to deliver the BT Managed SIEM Security Service, or any part of the BT Managed SIEM Security Service, because of lack of capacity, or any other limitations on Customer Equipment.
 - 4.4.2 BT does not guarantee that the BT Managed SIEM Security Service will detect or block all malicious threats.
 - 4.4.3 Certain Delivery Models and the Service Option may have minimum specifications for Customer Equipment and Enabling Services, as communicated to you by BT. BT will not be liable for any inability to provide the BT Managed SIEM Security Service, or any degradation of the BT Managed SIEM Security Service, if you do not have and maintain the Customer Equipment or Enabling Services to the required specification.

5 Associated Services and Third Parties

- 5.1 You will have the following services in place that will connect to the BT Managed SIEM Security Service and are necessary for the BT Managed SIEM Security Service to function and will ensure that these services meet the minimum technical requirements that BT specifies:
 - 5.1.1 Internet connectivity;
 - 5.1.2 WAN connectivity;
 - 5.1.3 LAN connectivity and associated infrastructure;

- 5.1.4 any additional switches that may be required for the BT Managed SIEM Security Service that are not provided by BT as set out in any applicable Order;
 - 5.1.5 any server platforms that may be required for the BT Managed SIEM Security Service; and
 - 5.1.6 SIEM Appliances, if you have selected the BT Takeover Delivery Model, (each an “**Enabling Service**”).
- 5.2 If BT provides you with any services other than the BT Managed SIEM Security Service, including, but not limited to any Enabling Service, this Schedule will not apply to those services and those services will be governed by their separate terms.

6 Equipment

6.1 Use of BT Equipment and Purchased Equipment

In relation to BT Equipment, and until title in any Purchased Equipment transfers to you in accordance with Paragraph 6.3.2, you will:

- 6.1.1 keep the BT Equipment and Purchased Equipment safe and without risk to health;
- 6.1.2 only use the BT Equipment and Purchased Equipment, or allow it to be used, in accordance with any instructions or authorisation BT may give and for the purpose for which it is designed;
- 6.1.3 not move the BT Equipment or Purchased Equipment or any part of it from the Site(s) without BT's written consent and, including after title in any Purchased Equipment transfers to you in accordance with Paragraph 6.3.2, you will pay BT's costs and expenses reasonably incurred as a result of such move or relocation;
- 6.1.4 not make any alterations or attachments to, or otherwise interfere with, the BT Equipment or Purchased Equipment, including after title in any Purchased Equipment transfers to you in accordance with Paragraph 6.3.2, nor permit any person (other than a person authorised by BT) to do so, without BT's prior written consent and, if BT gives its consent, agree that any alterations or attachments are part of the BT Equipment or Purchased Equipment;
- 6.1.5 not sell, charge, assign, transfer or dispose of or part with possession of the BT Equipment or Purchased Equipment or any part of it;
- 6.1.6 not allow any lien, encumbrance or security interest over the BT Equipment or Purchased Equipment, nor pledge the credit of BT for the repair of the BT Equipment or Purchased Equipment or otherwise;
- 6.1.7 not claim to be owner of the BT Equipment and Purchased Equipment and ensure that the owner of the Site(s) will not claim ownership of the BT Equipment or Purchased Equipment, even where the BT Equipment or Purchased Equipment is fixed to the Site(s);
- 6.1.8 obtain appropriate insurance against any damage to or theft or loss of the BT Equipment and Purchased Equipment;
- 6.1.9 in addition to any other rights that BT may have, reimburse BT for any losses, costs or liabilities arising from your use or misuse of the BT Equipment or Purchased Equipment or where the BT Equipment or Purchased Equipment is damaged, stolen or lost, except where the loss or damage to BT Equipment or Purchased Equipment is a result of fair wear and tear or caused by BT;
- 6.1.10 ensure that the BT Equipment or Purchased Equipment appears in BT's name in your accounting books;
- 6.1.11 where there is a threatened seizure of the BT Equipment and Purchased Equipment, or an Insolvency Event applies to you, immediately provide BT with Notice so that BT may take action to repossess the BT Equipment and Purchased Equipment; and
- 6.1.12 notify any interested third parties that BT owns the BT Equipment and Purchased Equipment.

6.2 BT Equipment

- 6.2.1 BT Equipment will remain BT's property at all times and risk in BT Equipment will pass to you upon delivery, whether or not the BT Equipment has been installed.
- 6.2.2 You will be liable to BT for any loss of or damage to BT Equipment, except where the loss or damage is a result of fair wear and tear or caused by BT.

6.3 Purchased Equipment

- 6.3.1 Delivery and Installation of Purchased Equipment
 - (a) You will provide BT with the name and contact details of at least one individual who is responsible for receiving the Purchased Equipment at the Site(s).
 - (b) Where a Site is located within the EU, BT will dispatch any Purchased Equipment for delivery to the applicable Site as set out in any applicable Order.
 - (c) Where a Site is located outside the EU:

- (i) you will act as the importer of record, clear the Purchased Equipment through the applicable customs authority in the destination country and be liable for any import tax, duty or excise duty incurred, and, if requested by BT, provide authorisation as soon as practicable, authorising BT or BT's agent to carry out BT's obligations as shipping agent. If you cannot give BT such authorisation, you will fulfil the shipping agent obligations on BT's behalf at your own cost; and
- (ii) subject to your compliance with Paragraph 6.3.1(c)(i):
 - i. BT will deliver any Purchased Equipment to the applicable port of entry in the destination country in accordance with Paragraph 6.3.1(b); or
 - ii. if agreed between both of us in any applicable Order, BT will arrange shipping services to deliver the Purchased Equipment to the final destination address(es) as set out in any applicable Order.
- (d) Where a Site is located within the EU, BT will, subject to Paragraph 6.3.1(e), install any Purchased Equipment at the applicable Site(s), and:
 - (i) test Purchased Equipment to ensure that it is ready for use; and
 - (ii) on the date that BT has completed those tests, confirm to you that the Purchased Equipment is available for you to carry out any Controlled Deployment Custom Rules Optimisation and Acceptance Tests in accordance with Paragraphs 8.2 and 9.2.
- (e) Where a Site is located within a country in the EU other than the Territory, BT will not:
 - (i) sell you the Purchased Equipment if you are not VAT-registered in the delivery country; and
 - (ii) install the Purchased Equipment unless the Reverse Charge Mechanism applies to such services in that country.
- (f) Where a Site is located outside the EU, BT will, subject to your compliance with Paragraph 6.3.1(c)(i), only sell you Purchased Equipment and not any associated installation.
- (g) In order to provide you with the Purchased Equipment and any installation services as set out in the Order, BT may transfer the provision and installation of Purchased Equipment outside the Territory to a BT Affiliate or a third party in accordance with Clause 26 of the General Terms.

6.3.2 Transfer of Title and Risk

- (a) Where the Purchased Equipment is delivered to a Site that is located within the Territory:
 - (i) title in the Purchased Equipment (except for the Intellectual Property Rights) will pass to you when you have paid for the Purchased Equipment in full;
 - (ii) where BT delivers or installs the Purchased Equipment, risk will pass to you on delivery of the Purchased Equipment, but you will not be liable for any loss or damage that is caused by BT's negligence; and
 - (iii) where BT does not deliver or install the Purchased Equipment, risk will pass to you when you take possession of the Purchased Equipment.
- (b) Where the Purchased Equipment is delivered to a Site that is not located within the Territory:
 - (i) title in the Purchased Equipment (except for the Intellectual Property Rights) will pass to you upon dispatch from the final shipping point in the Territory (or in transit where shipped from outside the Territory); and
 - (ii) risk in the Purchased Equipment will pass to you in accordance with Incoterms® 2010 DAP, but you will not be liable for any loss or damage that is caused by BT's negligence.

6.3.3 Acceptance of Purchased Equipment

- (a) Where a Site is located within the Territory, BT will treat the Purchased Equipment as accepted:
 - (i) where BT does not install the Purchased Equipment, when you take delivery or possession of the Purchased Equipment; and
 - (ii) where BT installs the Purchased Equipment, the earlier of:
 - i. the Service Start Date; and
 - ii. where you notify BT in writing that the Purchased Equipment has not passed the Acceptance Tests but that is due to minor Technical Incidents that do not affect the Purchased Equipment's performance, the date of that Notice.
- (b) Where a Site is not located within the Territory, we will treat the Purchased Equipment as accepted on signature for the delivery at the port of entry, or at the final delivery address(es) that BT has agreed with you where BT is shipping the Purchased Equipment.

6.3.4 Warranty

- (a) During the applicable warranty period as set out in the Supplier Annex attached to the Order (or any other period that BT advises you in a Notice), if you report to BT in accordance with Paragraph

2.6.1(f) that there is a Technical Incident in the Purchased Equipment due to faulty design, manufacture or materials, or BT's negligence, BT will, or will arrange for the manufacturer or other third party to, replace or (at BT's option) repair the part affected by, or causing, the Technical Incident free of charge, unless:

- (i) the Purchased Equipment has not been properly kept, used or maintained in accordance with the manufacturer's or BT's instructions, if any;
 - (ii) the Purchased Equipment has been modified without BT's written consent;
 - (iii) the Technical Incident is due to damage, interference with or maintenance of Purchased Equipment by persons other than BT or a third party authorised by BT; or
 - (iv) the Technical Incident is due to faulty design by you where the Purchased Equipment has been customised or integrated into your systems to your design.
- (b) If requested by BT, you will return the Purchased Equipment affected by a Technical Incident to BT or to the manufacturer or other third party, in accordance with BT's instructions, for repair or replacement in accordance with Paragraph 6.3.4(a).
- (c) BT does not warrant that the Software supplied in accordance with the Contract is free from Incidents, but BT will remedy any defects that materially impair performance (where necessary, by arrangement between both of us) within a reasonable time.

6.3.5 Security

- (a) You will ensure the proper use of any user names, personal identification numbers and passwords used with the Purchased Equipment, and you will take all necessary steps to ensure that they are kept confidential, secure and not made available to unauthorised persons.
- (b) BT does not guarantee the security of the Purchased Equipment against unauthorised or unlawful access or use.

6.3.6 Software Licence

On and from the Service Start Date, or, where BT installs any Purchased Equipment, from the date of installation, you will comply with the provisions of any Software licences provided with or as part of any Purchased Equipment.

6.4 WEEE Directive

In relation to Purchased Equipment:

- 6.4.1 You will comply with Article 13 of the Waste Electrical and Electronic Equipment Directive 2012 ("WEEE Directive") for the costs of collection, treatment, recovery, recycling and environmentally sound disposal of any equipment supplied under the Contract that has become waste electrical and electronic equipment ("WEEE").
- 6.4.2 For the purposes of Article 13 of the WEEE Directive this Paragraph 6.4 is an alternative arrangement to finance the collection, treatment, recovery, recycling and environmentally sound disposal of WEEE.
- 6.4.3 You will comply with any information recording or reporting obligations imposed by the WEEE Directive.

6.5 Sale of Goods

The UN Convention on Contracts for the International Sale of Goods will not apply to the Contract.

7 Specific Terms

7.1 Minimum Period of Service and Renewal Periods

- 7.1.1 Unless one of us gives Notice to the other of an intention to terminate the BT Managed SIEM Security Service at least 90 days before the end of the Minimum Period of Service or a Renewal Period, at the end of the Minimum Period of Service or Renewal Period the BT Managed SIEM Security Service will automatically extend for a Renewal Period and:
 - (a) BT will continue to provide the BT Managed SIEM Security Service;
 - (b) the Charges applicable during the Minimum Period of Service or Renewal Period may cease to apply and BT may propose changes to the Charges in accordance with Paragraph 7.1.3. If BT proposes changes to the Charges, BT will invoice you the Charges agreed in accordance with Paragraph 7.1.4. from expiry of the Minimum Period of Service or the Renewal Period; and
 - (c) both of us will continue to perform each of our obligations in accordance with the Contract.
- 7.1.2 If either of us gives Notice to the other of an intention to terminate the BT Managed SIEM Security Service, BT will cease delivering the BT Managed SIEM Security Service at the time of 23:59 on the last day of the Minimum Period of Service or subsequent Renewal Period.
- 7.1.3 BT may propose changes to this Schedule or the Charges (or both) by giving you Notice at least 90 days prior to the end of the Minimum Period of Service and each Renewal Period ("Notice to Amend").
- 7.1.4 Within 21 days of any Notice to Amend, you will provide BT Notice:

- (a) agreeing to the changes BT proposed, in which case those changes will apply from the beginning of the following Renewal Period;
- (b) requesting revisions to the changes BT proposed, in which case both of us will enter into good faith negotiations for the remainder of that Minimum Period of Service or Renewal Period, as applicable, and, if agreement is reached, the agreed changes will apply from the beginning of the following Renewal Period; or
- (c) terminating the Contract at the end of the Minimum Period of Service or Renewal Period, as applicable.

7.1.5 If we have not reached agreement in accordance with Paragraph 7.1.4(b) by the end of the Minimum Period of Service or the Renewal Period, the terms of this Schedule will continue to apply from the beginning of the following Renewal Period unless you give Notice in accordance with Paragraph 7.1.4(c) or BT may give Notice of termination, in which case BT will cease delivering the BT Managed SIEM Security Service at the time of 23:59 on the last day of the Minimum Period of Service or subsequent Renewal Period as applicable.

7.2 Customer Committed Date

7.2.1 If you request a change to the BT Managed SIEM Security Service or any part of the BT Managed SIEM Security Service, then BT may revise the Customer Committed Date to accommodate that change.

7.2.2 BT may expedite delivery of the BT Managed SIEM Security Service for operational reasons or in response to a request from you, but this will not revise the Customer Committed Date.

7.3 Service Transition

7.3.1 If you are transitioning your existing services or any SIEM solution to BT, you will provide any information or access BT reasonably requests, in accordance with any applicable Order, including:

- (a) an inventory list with information for each SIEM Appliance to be transitioned with relevant specifications, including:
 - (i) make and model of the SIEM Appliance(s);
 - (ii) the location of the SIEM Appliance(s);
 - (iii) software licence information;
 - (iv) network diagrams;
 - (v) SIEM Appliance(s) name and IP Address; and
 - (vi) details of any third party contracts, service level agreements and equipment;
- (b) access to any licence user centre;
- (c) any authorisation codes;
- (d) access and remote management access to your SIEM Appliance(s), at least 20 Business Days prior to the Service Start Date; and
- (e) copies of relevant extracts of your supplier support contracts. BT will assume that the existing service level agreements with the relevant supplier remain the same as set out in the copies provided to BT, unless you provide BT Notice.

7.3.2 BT may require the SIEM solution to pass a Transition Test prior to the commencement of the BT Managed SIEM Security Service.

7.3.3 If any SIEM solution fails the Transition Test:

- (a) you will authorise BT to carry out any remedial work required to bring the SIEM Appliance(s) to either the appropriate software and hardware level or standard and you will pay BT's charges for such remedial work as agreed by both of us; or
- (b) you will arrange at your own expense for remedial work to bring the SIEM Appliance(s) to either the appropriate software and hardware level or standard required. BT may arrange further Transition Tests for which BT may raise a Charge; or
- (c) you may change the inventory provided in accordance with Paragraph 7.3.1(a) to remove the SIEM Appliance(s) which has failed the Transition Test, subject to Paragraph 7.3.4, and BT may provide you with the option to purchase a suitable alternative; or
- (d) BT may terminate the BT Managed SIEM Security Service or any Order on 30 days' written Notice and you will pay BT the relevant Charges for the Transition Test(s).

7.3.4 Any changes to the inventory provided in accordance with Paragraph 7.3.1(a) will be made in writing and:

- (a) may cause delay to the transition of your service or the Service Start Date; and
- (b) may result in a change to the Charges to reflect the revised scope of the BT Managed SIEM Security Service.

7.3.5 Whether or not you perform Controlled Deployment Custom Rules Optimisation or Acceptance Tests in accordance with Paragraph 9.2 **Error! Reference source not found.**, you will provide reasonable technical support before and after the Service Start Date.

7.4 Licence

BT gives you a non-exclusive, non-transferable and limited right to use the BT Managed SIEM Security Service for your internal business purposes only.

7.5 EULA

7.5.1 BT will only provide the BT Managed SIEM Security Service if you have entered into an end user licence agreement with the applicable Supplier in the form set out at the web link in the Supplier Annex attached to any applicable Order, as it may be amended or supplemented from time to time by the Supplier ("**EULA**").

7.5.2 You will observe and comply with the EULA for any and all use of the BT Managed SIEM Security Service.

7.5.3 In addition to what it says in Clause 15 of the General Terms, if you do not comply with the EULA, BT may restrict or suspend the BT Managed SIEM Security Service upon reasonable Notice, and:

- (a) you will continue to pay the Charges for the BT Managed SIEM Security Service until the end of the Minimum period of Service; and
- (b) BT may charge a re-installation fee to re-start the BT Managed SIEM Security Service.

7.5.4 You will enter into the EULA for your own benefit and the rights, obligations, acknowledgements, undertakings, warranties and indemnities granted in accordance with the EULA will be between you and the Supplier and you will deal with the Supplier with respect to any loss or damage suffered by either of you as such loss or damage will not be enforceable against BT.

7.5.5 You will deal with the Supplier with respect to any loss or damage suffered by you or the Supplier under the EULA and such loss or damage will not be enforceable against BT.

7.5.6 Where the EULA is presented in a 'click to accept' function and you require BT to configure or install Software on your behalf, BT will do so as your agent and bind you to the EULA.

7.6 Invoicing

7.6.1 Unless set out otherwise in any applicable Order, BT will invoice you for the following Charges in the amounts set out in any applicable Order:

- (a) Installation Charges, in advance once you have placed the Order;
- (b) Recurring Charges, monthly in arrears (depending on your billing frequency) and for any period where the BT Managed SIEM Security Service is provided for less than one month, the Recurring Charges will be calculated on a daily basis;
- (c) Charges for any Transition Test in accordance with Paragraph 7.3.3;
- (d) Charges for any Site visit in accordance with Paragraph 8.1.3; and
- (e) any Charges for any Purchased Equipment from the Service Start Date, and those Charges that will apply from the date you take delivery or possession of that Purchased Equipment;
- (f) Professional Services Charges.

7.6.2 BT may invoice you for any of the following Charges in addition to those set out in any applicable Order:

- (a) Charges for investigating Technical Incidents that you report to BT where BT finds no Technical Incident or that the Technical Incident is caused by something for which BT is not responsible under the Contract;
- (b) Charges for commissioning the BT Managed SIEM Security Service in accordance with Paragraph 8.2 outside of Business Hours;
- (c) Charges for expediting provision of the BT Managed SIEM Security Service at your request after BT has informed you of the Customer Committed Date;
- (d) Charges for restoring the BT Managed SIEM Security Service if the BT Managed SIEM Security Service has been suspended in accordance with Clause 10.1.2 of the General Terms;
- (e) Charges for cancelling the BT Managed SIEM Security Service in accordance with Clause 16 of the General Terms;
- (f) additional Charges in accordance with Paragraph 2.5.1 (e) if the Controlled Deployment Custom Rules Optimisation Period is extended for any reason beyond 90 days Business Days after receiving Notice from BT in accordance with Paragraph 8.2.5;
- (g) any charges incurred by BT from a Supplier for reinstating any lapsed BT Managed SIEM Security Service support or licence agreements;
- (h) Charges for appointing and providing a named BT Project Manager if you have purchased Foundation in accordance with Paragraph 2.4.1 (c);
- (i) Charges for providing a named BT Project Manager if you have purchased Foundation Plus in accordance with Paragraph 2.4.2(b);

- (j) Charges for connecting additional External Data Sources to the SIEM Appliance(s) in accordance with Paragraph 2.4.1(e)(iv);
- (k) Charges for attending the Site(s) in accordance with Paragraph 2.4.1(e)(vii);
- (l) Charges for additional Custom Rules in accordance with Paragraphs 2.4.1(d)(ii), 2.4.2(c)(i) and 2.4.3(b)(i);
- (m) Charges for implementing Patches with a High CVSS Score or a Medium CVSS Score, on your request, if you have purchased Foundation, in accordance with Paragraph 1(iv), or a Medium CVSS Score on your request if you have purchased Foundation Plus in accordance with Paragraph 2.7.2(e)(ii);
- (n) Charges for rolling back Patches on your request in accordance with Paragraph 1(ix);
- (o) Charges for implementing Patches quicker than the implementation table on your request in accordance with Paragraph 2.7.2(f)(ii);
- (p) Charges for the cost of implementing Complex Changes in accordance with Paragraph 2.7.3(b)(iii) and Emergency Changes in accordance with Paragraph 2.7.3(b)(vii);
- (q) Charges associated with an appropriate alternative implementation process if you have raised change requests more frequently than allowed by the Reasonable Use Policy in accordance with Paragraph 2.7.3(b)(v)iii;
- (r) Charges for remedial work required to bring the SIEM Appliance to the appropriate software and hardware level and standard, if applicable, in accordance with Paragraph 7.3.3(a);
- (s) Charges to cover any costs reasonably incurred by BT as a result of any non-conformity of the Customer Equipment in accordance with Paragraph 9.1.20;
- (t) any other Charges as set out in any applicable Order or as otherwise agreed between both of us; and
- (u) any Termination Charges incurred in accordance with Paragraph 7.7 upon termination of the relevant BT Managed SIEM Security Service.

7.6.3 EPS Reasonable Use Policy

- (a) Where your monthly EPS volume exceeds the agreed EPS volume, as determined by the average EPS volume measured over a consecutive three month period, BT reserves the right to increase the monthly Charges to reflect the increase in EPS volumes.
- (b) BT will notify you at least one month in advance before any changes in the Charges are applied.

7.7 Termination Charges

7.7.1 If you terminate the Contract or the BT Managed SIEM Security Service for convenience in accordance with Clause 17 of the General Terms you will pay BT:

- (a) all outstanding Charges or payments due and payable under the Contract;
- (b) any remaining Charges outstanding with regard to BT Equipment or Purchased Equipment;
- (c) any other Charges as set out in any applicable Order; and
- (d) any charges that BT has to pay a supplier as a result of early termination of the BT Managed SIEM Security Service.

7.7.2 In addition to the Charges set out at Paragraph 7.7.1 above, if you terminate during the Minimum Period of Service or any Renewal Period, you will pay BT:

- (a) for any parts of the BT Managed SIEM Security Service that were terminated during the first 12 months of the Minimum Period of Service or Renewal Period, Termination Charges, as compensation, equal to:
 - (i) 100 per cent of the Recurring Charges for any remaining months of the first 12 months of the Minimum Period of Service;
 - (ii) 20 per cent of the Recurring Charges for the remaining months, other than the first 12 months of the Minimum Period of Service or Renewal Period;
 - (iii) any waived Installation Charges; and
- (b) for any parts of the BT Managed SIEM Security Service that were terminated after the first 12 months of the Minimum Period of Service or during a Renewal Period, Termination Charges, as compensation, equal to 20 per cent of the Recurring Charges for any remaining months of the Minimum Period of Service or the Renewal Period.

7.8 Upgrade to a Higher Graded Service Tier

7.8.1 You may upgrade to a higher Graded Service Tier during the Minimum Period of Service.

7.8.2 No Termination Charges will be payable from the Graded Service Tier you are moving from. New Charges for the upgraded Graded Service Tier will be set out in the Order.

7.8.3 A new Minimum Period of Service will apply to the upgraded Graded Service Tier as set out in the Order. You may not downgrade to a lower Graded Service Tier.

Part B – Service Delivery and Management

8 BT's Obligations

8.1 Service Delivery

Before the Service Start Date and, where applicable, throughout the provision of the BT Managed SIEM Security Service, BT:

- 8.1.1 will provide you with contact details for the Service Desk;
- 8.1.2 will comply with all reasonable health and safety rules and regulations and reasonable security requirements that apply at the Site(s) and that you have notified to BT in writing, but BT will not be liable if, as a result of any such compliance, BT is in breach of any of its obligations under this Contract;
- 8.1.3 will, where applicable, arrange for any surveys to be conducted to confirm the availability of a suitable environment for provision of the BT Managed SIEM Security Service (including confirming the presence of Enabling Services). Where the surveys identify that additional engineering work is required in order to provide a suitable environment you will complete these works prior to installation of the BT Managed SIEM Security Service. Failure to do so may result in a change to the Customer Committed Date, Charges for an aborted Site visit, or BT may provide a new quote to you, detailing the additional Charges you will need to pay for the engineering work to be completed, and:
 - (a) where you accept the new quote, BT will either:
 - (i) cancel the existing Order to the affected Site(s) and generate a new Order for the affected Site(s) with a new Customer Committed Date; or
 - (ii) modify the existing Order to reflect the new requirements and provide a new Customer Committed Date;
 - (b) where you do not accept the new quote, you may instruct BT to proceed with the existing Order; or
 - (c) where you do not accept the new quote or you do not instruct BT to proceed with the existing Order, BT will cancel your existing Order for the provision of the BT Managed SIEM Security Service to the affected Site(s) and BT will have no obligation to provide the BT Managed SIEM Security Service to that Site. You will pay BT for any equipment that BT orders to fulfil BT's obligations where you subsequently cancel or amend such Order and BT is unable to return the equipment to the supplier;
- 8.1.4 will, once the requirements of the BT Managed SIEM Security Service have been confirmed and agreed, and, where applicable, you provide the details set out in Paragraph 7.3.1 provide you with a Customer Committed Date and will use reasonable endeavours to meet any Customer Committed Date;
- 8.1.5 may share such information about the BT Managed SIEM Security Service and SIEM Appliances with the Supplier as may be necessary for BT to provide the BT Managed SIEM Security Service. Such information may be sent automatically from SIEM Appliances or Software to the Supplier; and
- 8.1.6 will not be responsible for any:
 - (a) delay in providing;
 - (b) interruption to; or
 - (c) degradation of,the BT Managed SIEM Security Service caused by errors or omissions in any information, instructions or scripts provided to BT by you in connection with the BT Managed SIEM Security Service, or any actions taken by BT at your direction.

8.2 Commissioning of the Service

Before the Service Start Date, BT will:

- 8.2.1 contact you and agree installation dates(s), including access for third party installers;
- 8.2.2 install and configure the BT Managed SIEM Security Service, including the Purchased Equipment;
- 8.2.3 conduct a series of standard tests on the BT Managed SIEM Security Service to ensure that it is configured correctly;
- 8.2.4 connect the BT Managed SIEM Security Service to each Enabling Service; and
- 8.2.5 on the date that BT has completed the activities in this Paragraph 8.2, confirm to you that the SIEM Appliances are available for Controlled Deployment Custom Rules Optimisation and performance of any Acceptance Tests in accordance with Paragraph 9.2.

8.3 During Operation

On and from the Service Start Date, BT:

- 8.3.1 will respond and use reasonable endeavours to remedy a Technical Incident without undue delay if BT detects or if you report a Technical Incident;
 - 8.3.2 will respond to Security Incidents as set out in Paragraph 10.4;
 - 8.3.3 will maintain and use reasonable endeavours to provide uninterrupted access to all pre-agreed and authorised Customer Contacts to the Security Portal but BT does not guarantee that the Security Portal will be available at all times or will be fault free;
 - 8.3.4 will retain normalised Event Log Data as follows:
 - (a) 30 Business Days of detailed information and Event Log Data online; and
 - (b) three months of weekly reports online;
 - 8.3.5 may, in the event of a security breach affecting the BT Managed SIEM Security Service, require you to change any or all of your passwords;
 - 8.3.6 may install additional BT Equipment on your Site, for the purpose of monitoring and management of the BT Managed SIEM Security Service;
 - 8.3.7 will use secure protocols or provide a secure management link to connect to the SIEM Appliance at your Site(s) via the Internet or other agreed network connection, in order to monitor the BT Managed SIEM Security Service proactively and to assist in Technical Incident diagnosis; and
 - 8.3.8 may carry out Maintenance from time to time and will use reasonable endeavours to inform you at least five Business Days before any Planned Maintenance on the BT Managed SIEM Security Service. However, BT may inform you with less notice than normal where Maintenance is required in an emergency. BT may carry out the Maintenance remotely or by visiting the Site as appropriate.
- 8.4 **The End of the Service**
- On termination of the BT Managed SIEM Security Service by either of us, BT:
- 8.4.1 will provide configuration information relating to the BT Managed SIEM Security Service provided at the Site(s) in a format that BT reasonably specifies;
 - 8.4.2 may disconnect and remove any BT Equipment located at the Site(s); and
 - 8.4.3 may delete any Content, including stored Logs or any configuration data relating to BT's management of the BT Managed SIEM Security Service.

9 Your Obligations

9.1 Service Delivery

Before the Service Start Date and, where applicable, throughout the provision of the BT Managed SIEM Security Service, you will:

- 9.1.1 provide BT with the names and contact details of the Customer Contact including escalation details, but BT may also accept instructions from a person who BT reasonably believes is acting with your authority;
- 9.1.2 nominate suitably empowered and informed customer service teams that will interact with the BT SOC when raising Technical Incidents and when responding to Security Incidents;
- 9.1.3 provide BT with information reasonably requested (including business and technical information accurate in all respects) in a timely manner and promptly notify BT, in writing, of any changes to the information you have provided;
- 9.1.4 provide BT with a copy of your security policies;
- 9.1.5 ensure that you have the capabilities, Log Forwarders and supported protocols in place to be able to forward Event Log Data to the relevant SIEM Appliances;
- 9.1.6 provide BT with the ability to install any SIEM Appliances inside your network on a network segment where Customer Equipment Log data sources being monitored can deliver Event Log Data to the SIEM Appliances;
- 9.1.7 attend integration meetings to discuss further tuning and configuration of the SIEM Appliances;
- 9.1.8 provide BT with access to any Site(s) during Business Hours, or as otherwise agreed, to enable BT to set up, deliver and manage the BT Managed SIEM Security Service;
- 9.1.9 complete any preparation activities including installation and maintenance of any software or hardware that is not included as part of the BT Managed SIEM Security Service, that BT may request to enable you to receive the BT Managed SIEM Security Service promptly and in accordance with any reasonable timescales;
- 9.1.10 provide BT with Notice of any health and safety rules and regulations and security requirements that apply at the Site(s);

- 9.1.11 in jurisdictions where an employer is legally required to make a disclosure to its Users and other employees:
- (a) inform your Users that as part of the BT Managed SIEM Security Service being delivered by BT, BT may monitor and report to you the use of any targeted applications by them;
 - (b) ensure that your Users have consented or are deemed to have consented to such monitoring and reporting (if such consent is legally required); and
 - (c) agree that BT will not be liable for any failure by you to comply with this Paragraph 9.1.11, you will be liable to BT for any Claims, losses, costs or liabilities incurred or suffered by BT due to your failure to comply with this Paragraph 9.1.11;
- 9.1.12 ensure that the LAN protocols and applications you use are compatible with the BT Managed SIEM Security Service;
- 9.1.13 prepare and maintain the Site(s) for the installation of BT Equipment and Purchased Equipment and supply of the BT Managed SIEM Security Service, including:
- (a) providing a suitable and safe operational environment for any BT Equipment or Purchased Equipment including all necessary trunking, conduits, cable trays, and telecommunications connection points in accordance with BT's reasonable instructions and applicable installation standards;
 - (b) complying with any Site accommodation requirements as set out in any applicable Order;
 - (c) taking up or removing any fitted or fixed floor coverings, ceiling tiles and partition covers or providing any openings in buildings required to connect BT Equipment or Purchased Equipment to appropriate telecommunications facilities in time to allow BT to undertake any necessary installation or maintenance services;
 - (d) providing a secure, continuous power supply at the Site(s) for the operation and maintenance of the BT Managed SIEM Security Service, BT Equipment or Purchased Equipment at such points and with such connections as BT specifies, and, in order to mitigate any interruption to the BT Managed SIEM Security Service resulting from failure in the principal power supply, provide back-up power with sufficient capacity to conform to the standby requirements of the applicable standards; and
 - (e) providing internal cabling between the BT Equipment and any Customer Equipment, as appropriate;
- 9.1.14 give Notice to BT, five Business Days in advance, and provide details, of any changes to your network, that may affect the functioning of the BT Managed SIEM Security Service. If this information is not provided, or is provided less than five Business Days before a change, then BT will not be liable for any Technical or Security Incidents or incorrect functioning of the BT Managed SIEM Security Service as a result of the change;
- 9.1.15 only use any SIEM Appliance, or allow it to be used, in accordance with any instructions or authorisation BT may give and for the purpose for which it is designed;
- 9.1.16 not relocate any SIEM Appliance without BT's prior written consent;
- 9.1.17 ensure that your WAN or Internet access circuit bandwidth is sufficient to meet your requirements and for the management access by BT;
- 9.1.18 manage, and provide BT with, accurate details of your internal IP Address design;
- 9.1.19 ensure that the SIEM Appliances are able to receive updates, such as vulnerability signatures, directly over the Internet, or over an alternative path agreed with BT for that purpose;
- 9.1.20 if BT has agreed to provide any part of the BT Managed SIEM Security Service using Customer Equipment, ensure that the relevant Customer Equipment:
- (a) complies with any minimum specification given to you by BT;
 - (b) will comply with the requirements of Paragraph 9.3.4;
 - (c) is fully functional; and
- if the relevant Customer Equipment does not comply with this Paragraph 9.1.20 then BT may raise an additional Charge to cover any costs reasonably incurred by BT as a result of the non-conformity, and any agreed installation dates and the Customer Committed Date(s) may no longer apply;
- 9.1.21 ensure that your network and all applications conform to relevant industry standards and provide written confirmation to BT upon reasonable request;
- 9.1.22 for any Customer Equipment used in the BT Managed SIEM Security Service, be responsible for ensuring compliance with Applicable Law, including obtaining (if required) local import and User licenses and the written authority from all respective authorities, particularly for countries where the use and import of encryption Software and devices may be restricted by Applicable Law, or the export and re-export of the encryption Software or devices may be subject to the United States of America export control

law and not act to misuse the BT Managed SIEM Security Service as provided by BT to contravene or circumvent these laws. BT may treat any contravention of these laws as a material breach and:

- (a) suspend the BT Managed SIEM Security Service and BT may refuse to restore the BT Managed SIEM Security Service until BT receives an acceptable assurance from you that there will be no further contravention; or
- (b) terminate the BT Managed SIEM Security Service upon Notice in accordance with Clause 18 of the General Terms;

9.1.23 provide BT with any information that is reasonably requested by any regulatory body, legal authority or government entity in any country in connection with regulatory, administrative, legal or lawful interception requests; and

9.1.24 be responsible for any issues on Users' machines or your servers (e.g. operating system, coding languages and security settings) making sure all issues are dealt with in a timely manner and ensure that any repaired devices are configured correctly to send data to the BT Managed SIEM Security Service;

9.1.25 ensure that your network or Internet connectivity performs correctly and will send Logs to the SIEM Appliances;

9.1.26 where you are providing the Customer Equipment on which the Virtual SIEM Appliance(s) are installed:

- (a) provide the underpinning operating system on the Customer Equipment as well as the licencing and support agreements, including their renewal;
- (b) upgrade the firmware of the Customer Equipment and your underpinning operating system software on which the Virtual SIEM Appliance is installed; and

9.1.27 ensure that all data provided to BT's technical design team is accurate to ensure that (if applicable) your HAC has the capacity to handle the full load independently.

9.2 **Controlled Deployment Custom Rules Optimisation and Acceptance Tests**

9.2.1 You will carry out the Controlled Deployment Custom Rules Optimisation within the Controlled Deployment Custom Rules Optimisation Period.

9.2.2 In respect of Foundation Plus and Premium, both of us will jointly carry out the Controlled Deployment Custom Rules Optimisation. You will use reasonable endeavours to complete the Controlled Deployment Custom Rules Optimisation as early into the Controlled Deployment Custom Rules Optimisation Period as possible.

9.2.3 You will submit any changes you require to the Custom Rules as a result of the Controlled Deployment Custom Rules Optimisation through the Custom Rules Change Management Process.

9.2.4 You will carry out the Acceptance Tests for the BT Managed SIEM Security Service during the Controlled Deployment Custom Rules Optimisation Period and use reasonable endeavours to complete the Acceptance Tests as early into the Controlled Deployment Custom Rules Optimisation Period as possible.

9.2.5 The BT Managed SIEM Security Service is accepted by you if you confirm acceptance in writing during the Controlled Deployment Custom Rules Optimisation Period or is treated as being accepted by you if you do not provide BT with Notice to the contrary by the end of the Controlled Deployment Custom Rules Optimisation Period.

9.2.6 Subject to Paragraph 9.2.7 **Error! Reference source not found.**, the Service Start Date will be the earlier of the following:

- (a) the date that you confirm or BT deems acceptance of the BT Managed SIEM Security Service in writing in accordance with Paragraph 9.2.5; or
- (b) the date of the first day following the Controlled Deployment Custom Rules Optimisation Period.

9.2.7 If, during the Controlled Deployment Custom Rules Optimisation Period, you provide BT Notice that the Acceptance Tests have not been passed, BT will remedy the non-conformance without undue delay and provide you Notice that BT has remedied the non-conformance and inform you of the Service Start Date.

9.3 **During Operation**

On and from the Service Start Date, you will:

9.3.1 ensure that Users report Technical Incidents to the Customer Contact and not to the Service Desk;

9.3.2 ensure that the Customer Contact will take Technical Incident reports from Users and pass these to the Service Desk using the reporting procedures agreed between both of us, and is available for all subsequent Technical Incident management communications;

9.3.3 monitor and maintain any Customer Equipment connected to the BT Managed SIEM Security Service or used in connection with the BT Managed SIEM Security Service;

- 9.3.4 ensure that any Customer Equipment that is connected to the BT Managed SIEM Security Service or that you use, directly or indirectly, in relation to the BT Managed SIEM Security Service is:
- (a) connected using the applicable BT Network termination point, unless you have BT's permission to connect by another means;
 - (b) adequately protected against viruses and other breaches of security;
 - (c) technically compatible with the BT Managed SIEM Security Service and will not harm or damage BT Equipment, the BT Network, or any of BT's suppliers' or subcontractors' network or equipment; and
 - (d) approved and used in accordance with relevant instructions, standards and Applicable Law and any safety and security procedures applicable to the use of that Customer Equipment;
- 9.3.5 immediately disconnect any Customer Equipment, or advise BT to do so at your expense, where Customer Equipment does not meet any relevant instructions, standards or Applicable Law and redress the issues with the Customer Equipment prior to reconnection to the BT Managed SIEM Security Service;
- 9.3.6 submit a request to BT if you want to change any SIEM Appliance's IP Address or change, add or remove any External Data Source;
- 9.3.7 notify BT of any planned work that you intend to undertake that may cause a Technical Incident;
- 9.3.8 ensure that all Enabling Services are maintained throughout the provision of the BT Managed SIEM Security Service;
- 9.3.9 be responsible for any conclusions drawn from, and rectification of, any issues identified by use of the BT Managed SIEM Security Service, supported by BT in accordance with the Service Level selected by you and set out in any applicable Order;
- 9.3.10 back up Log data;
- 9.3.11 be responsible, unless otherwise set out in any applicable Order, for your Custom Rules;
- 9.3.12 maintain a written list of current Users and provide a copy of such list to BT within five Business Days following BT's written request at any time;
- 9.3.13 ensure the security and proper use of all valid User access profiles, passwords and other systems administration information used in connection with the BT Managed SIEM Security Service and:
- (a) immediately terminate access for any person who is no longer a User;
 - (b) inform BT immediately if a User's ID or password has, or is likely to, become known to an unauthorised person, or is being or may be used in an unauthorised way;
 - (c) take all reasonable steps to prevent unauthorised access to the BT Managed SIEM Security Service; and
 - (d) satisfy BT's security checks if a password is lost or forgotten;
- 9.3.14 in respect of the BT Managed SIEM Security Service:
- (a) ensure that Log level auditing is turned on for all data sources monitored by the SIEM Appliance. If the Log level auditing is not turned on, this will impact the BT Managed SIEM Security Service;
 - (b) attend review meetings, as required by BT;
 - (c) prior to the meeting referred to in Paragraph 9.3.14(b), provide the most up to date network diagram of your existing IT network; and
 - (d) if you fail to attend the review meetings regularly, BT has the right to refuse your requests for tuning the BT Managed SIEM Security Service; and
- 9.3.15 in the event of a Technical Incident requiring your technical support, you will provide BT with the necessary support and timely authorisation for any necessary changes notified by BT to your Customer Contact.
- 9.4 The End of the Service**
- On termination of the BT Managed SIEM Security Service by either of us, you will:
- 9.4.1 provide BT with all reasonable assistance necessary to remove BT Equipment from the Site(s);
 - 9.4.2 disconnect any Customer Equipment from BT Equipment located at the Site(s) and dispose of any Customer Equipment that has become WEEE in accordance with Paragraph 6.4 above;
 - 9.4.3 not dispose of or use BT Equipment other than in accordance with BT's written instructions or authorisation;
 - 9.4.4 arrange for any BT Equipment located at the Site(s) to be returned to BT or, if BT has elected to disconnect and remove the BT Equipment located at the Site(s) in accordance with Paragraph 8.4.2 above, arrange access for BT to carry out such disconnection and removal; and
 - 9.4.5 be liable for any reasonable costs of recovery that BT incurs in recovering the BT Equipment.

Part C – Service Levels

10 Service Levels and Service Targets

10.1 Service Targets Technical Incident Management

Priority	Target Progress Update		Target Restoration Time	
	Foundation	Foundation Plus and Premium		Foundation, Foundation Plus and Premium
P1-P5	whenever a progress update is available	confirmation of the Incident within 15 minutes following this and first update 30 minutes of the Incident being reported and then at intervals as follows:	follow up if you do not respond to BT questions at intervals as follows:	
P1		every 20 minutes	every 2 hours	5 hours
P2		every 40 minutes	every 4 hours	12 hours
P3		every 2 hours	every 12 hours	24 hours
P4		every 4 hours	every 24 hours	72 hours
P5		every 6 hours	N/A	N/A

- 10.1.1 BT will aim to provide you with an update on the progress of an Incident in accordance with the table above.
- 10.1.2 BT will not provide a progress update while BT is waiting on your input or feedback.
- 10.1.3 BT will aim to restore the BT Managed SIEM Security Service affected by the Technical Incident within the period set out in the table above.
- 10.1.4 The progress update times and restoration times are targets only and BT will have no liability for failure to meet them.

10.2 Service Availability

10.2.1 Availability Service Level

- (a) From the Service Start Date, BT will provide the BT Managed SIEM Security Service with a target availability corresponding to the applicable SLA Category for the BT Managed SIEM Security Service, as set out in the table below ("**Availability Service Level**").
- (b) You may request Availability Service Credits for Priority 1 Technical Incidents at the Standard Availability Service Credit Rate, as set out in Paragraph 10.3.4.
- (c) The following table sets out the Availability Annual Targets, the Maximum Annual Availability Downtime, the Maximum Monthly Availability Target, the Standard Availability Service Credit Rate, and the Service Credit Interval for the applicable SLA Category:

SLA Category	Availability Annual Target	Maximum Annual Availability Downtime	Maximum Monthly Availability Target	Standard Availability Service Credit Rate	Service Credit Interval
Cat A	≥ 99.95%	4 hours	0 minutes	1.5%	1 hour

10.3 Availability Service Credits

- 10.3.1 If a Priority 1 Technical Incident occurs, BT will measure the Availability Downtime starting from when you report a Qualifying Technical Incident and ending when BT closes the Technical Incident in accordance with Paragraph 2.6.1(f)(viii).
- 10.3.2 BT will measure the Availability Downtime in units of full minutes during the Local Contracted Business Hours or during Contracted Maintenance Hours as applicable.
- 10.3.3 BT will then calculate the cumulative Availability Downtime for the calendar months in which the Priority 1 Technical Incident occurred ("**Cumulative Monthly Availability Downtime**").
- 10.3.4 If the Cumulative Monthly Availability Downtime of the BT Managed SIEM Security Service exceeds the Maximum Monthly Availability Target, you may request Availability Service Credits for each Service Credit Interval of 1.5 per cent of the Monthly Recurring Charges for the relevant BT Managed SIEM Security Service.

10.4 Security Incident Notification – Target Response Times

- 10.4.1 From the Service Start Date, BT will aim to notify you in response to a Security Incident ("**Security Incident Notification**") in accordance with the target response times as set out in the table below for the Graded Service Tier selected by you and set out in any applicable Order. A Security Incident Notification may

BT Managed SIEM Security Service Schedule

take the form of a Security Event Classification Notification or a Security Case Assessment Notification, the applicable target response times for both are, set out in the table below.

10.4.2 No Service Credits apply to the provision of the Security Incident Notification target response times.

		Security Event Classification Notification Target			Security Case Assessment Notification Target		
BT Priority	Graded Service						
P1	Foundation	30 minutes	☒		4 hours	☒	
	Foundation Plus	30 minutes	☒	📞	4 hours	☒	📞
	Premium	30 minutes	☒	📞	4 hours	☒	📞
P2	Foundation	2 hours	☒		8 hours	☒	
	Foundation Plus	2 hours	☒		8 hours	☒	
	Premium	2 hours	☒	📞	8 hours	☒	📞
P3	Foundation	4 hours	☒		24 hours	☒	
	Foundation Plus	4 hours	☒		24 hours	☒	
	Premium	4 hours	☒	📞	24 hours	☒	📞
P4	Foundation	Weekly/Monthly in agreed reporting	☒		Weekly/Monthly in agreed reporting	☒	
	Foundation Plus	Weekly/Monthly in agreed reporting	☒		Weekly/Monthly in agreed reporting	☒	
	Premium	Weekly/Monthly in agreed reporting	☒		Weekly/Monthly in agreed reporting	☒	

11 Requests for Availability Service Credits

- 11.1 You may request applicable Availability Service Credits in accordance with Paragraph 10.3.4 within 28 days of the end of the calendar month in which a Qualifying Priority 1 Technical Incident occurred, by providing details of the reason for the claim. Any failure by you to submit a request in accordance with this Paragraph 11.1 will constitute a waiver of any claim for Service Credits for that calendar month.
- 11.2 Upon receipt of a valid request for Service Credits in accordance with Paragraph 11.1:
- 11.2.1 BT will issue you with the applicable Service Credits by deducting those Service Credits from your invoice within two billing cycles of the request being received; and
 - 11.2.2 following expiry or termination of the Contract where no further invoices are due to be issued by BT, BT will pay you the Service Credits in a reasonable period of time.
- 11.3 Service Credits for all Service Levels will be aggregated and are available up to a maximum amount equal to 1.5 per cent of the monthly Recurring Charge for the affected BT Managed SIEM Security Service.
- 11.4 All Service Levels and Service Credits will be calculated in accordance with information recorded by, or on behalf of, BT.
- 11.5 The Service Levels under this Schedule will not apply:
- 11.5.1 in the event that Clause 8 or Clause 23 of the General Terms applies;
 - 11.5.2 during any trial period of the BT Managed SIEM Security Service;
 - 11.5.3 where Availability is impacted due to a fault with the Internet connection or other Enabling Service you are required to provide, in accordance with Paragraph 5.1;
 - 11.5.4 where Availability is impacted due to any connections or cabling to the SIEM Appliance; or
 - 11.5.5 where Availability is impacted due to faults in your infrastructure (both physical and virtual) or third party network.

Part D – Defined Terms

12 Defined Terms

In addition to the defined terms in the General Terms, capitalised terms in this Schedule will have the below meanings (and in the case of conflict between these defined terms and the defined terms in the General Terms, these defined terms will take precedence for the purposes of this Schedule). BT has repeated some definitions in this Schedule that are already defined in the General Terms. This is to make it easier for you to find the definitions when reading this Schedule.

“Acceptance Tests” means those objective tests conducted by you that when passed confirm that you accept the BT Managed SIEM Security Service and that the BT Managed SIEM Security Service is ready for use save for any minor non-conformities that will be resolved as a Technical Incident in accordance with Paragraph 8.3.1

“Active-Active” means a HAC in which both SIEM Appliances share the load under normal conditions.

“Active-Passive” means a HAC in which one SIEM Appliance handles the load under normal conditions, with failover to a secondary SIEM Appliance in the event of the primary SIEM Appliance failing.

“Ad Hoc Post Security Incident Activity Support” means ad hoc activity, requested by you, following a previously reported Security Incident.

“Availability” means the period of time when the BT Managed SIEM Security Service is functioning.

“Availability Annual Target” has the meaning given in the table at Paragraph 10.2.1 for the relevant SLA Category.

“Availability Downtime” means the period of time during which a Priority 1 Technical Incident exists as measured by BT in accordance with Paragraph 10.3.1

“Availability Service Credit” means the Service Credit available for a failure to meet the Availability Service Level, as set out in Paragraph 10.3.4

“Availability Service Level” has the meaning given in Paragraph 10.2.1.

“BT Cloud SIEM Delivery Model” means the Delivery Model set out in Paragraph 2.3.4.

“BT Managed SIEM Security Service” means has the meaning given in Paragraph 1.

“BT SOC” means BT’s security operations centre where BT’s team of security analysts and specialists use various security technologies, to monitor and protect people, processes and assets across an organisation.

“BT Project Manager” means the project manager BT appoints to liaise with you on Initial Setup and Controlled Deployment matters as set out in this Schedule.

“BT Takeover Delivery Model” means the Delivery Model set out in Paragraph 2.3.3.

“BT Virtual Sentry” means the BT proprietarily owned software image that is issued to you by BT that you will install on your own virtual machine which will perform the same functionality as a Hardware Sentry.

“Business Hours” means between the hours of 0800 and 1700 in a Business Day.

“Case” means an issue that is “opened” and “closed” over a period of time to achieve resolution of a Security Incident that has been identified by the BT Managed SIEM Security Service.

“Cloud Log Management” means a feature of the BT Cloud SIEM Delivery Model provided by BT that can be used to store Log management data for up to 90 days.

“Complex Change” means a change that is not a Simple Change. Examples of Complex Changes are set out in the document titled Simple and Complex Changes which can be accessed through the Security Portal.

“Content” means applications, data, information (including emails), video, graphics, sound, music, photographs, software or any other material.

“Continuous Improvement” means the continuous improvement phase of the BT Security Manged SIEM Service as set out in Paragraph 2.7.

“Contracted Maintenance Hours” means the times during which BT will provide maintenance for BT Equipment, which are Business Hours unless set out otherwise in any applicable Order.

“Controlled Deployment” means the controlled deployment phase of the BT Managed SIEM Security Service as set out in Paragraph 2.5.

“Controlled Deployment Custom Rules Optimisation” means the fine tuning of your Custom Rules, conducted by you or in respect of Foundation Plus or Premium only both of us jointly and.

“Controlled Deployment Custom Rules Optimisation Period” means up to 90 Business Days after receiving Notice from BT in accordance with Paragraph 8.2.5. This period may be extended depending on various parameters including number of Logs, creation of rule sets and wider activities running and testing associated Playbooks.

“Correlation Rules” means a list of actions or event steps that specifically define the interaction between a role and a system to achieve a goal.

“CPU” means Central Processing Unit.

“Critical CVSS Score” means a CVSS score range from 9.0 to 10.0.

“Cumulative Monthly Availability Downtime” has the meaning given in Paragraph 10.3.3.

“Customer Equipment” means any equipment including any Purchased Equipment and any software, other than BT Equipment, used by you in connection with a BT Managed SIEM Security Service.

- “Customer Owned Delivery Model”** means the Delivery Model set out in Paragraph 2.3.2.
- “Customer Purchase Delivery Model”** means the Delivery Model set out in Paragraph 2.3.1.
- “Custom Rules”** means bespoke Correlation Rules, specific to your requirements and individual deployment, that are created in the BT Managed SIEM Security Service and set out in the applicable Order.
- “Custom Rules Change Management Process”** means the process in relation to changes to the Custom Rules as set out in Paragraph 2.7.3.
- “Custom Rule Design and Deployment”** means the Custom Rule design and deployment services set out in Paragraph 2.4.1(d).
- “Customer Service Description”** means the document that is available via the Security Portal and describes the BT Managed SIEM Security Service and includes, for instance, the Standard Default Rule Set. This document is not legally binding.
- “CVSS”** means Common Vulnerability Scoring System v3.0.
- “DAP”** means Delivered at Place as defined in Incoterms® 2010.
- “Data Capture Form”** means the data capture form attached to an applicable Order in accordance with Paragraph 2.4.1(e)(i).
- “Delivery Model”** means one of the Customer Purchase Delivery Model, the Customer Owned Delivery Model, the BT Takeover Delivery Model or the BT Cloud SIEM Delivery Model.
- “Emergency Change”** means a highly critical, Simple Change that must be implemented as soon as possible specifically to address an issue having an adverse impact to business operations, or to prevent or resolve a Priority 1 Technical Incident or a Priority 1 Security Incident.
- “Enabling Service”** has the meaning given in Paragraph 5.1.
- “EPS”** means events per second and the agreed EPS volume is set out in the applicable Order.
- “EU”** means European Union.
- “EULA”** has the meaning given in Paragraph 7.5.
- “Event”** means an event that is generated by your network, security or IT systems that is then forwarded to the BT Managed SIEM Security Service for processing, analysis and storage.
- “Event Correlation”** means immediate analysis of normalised Event Log Data, to track threats, monitor User activity and track related transactions and data access and categorise each Event according to its severity for inspection by the BT SOC.
- “Event Log Data”** means the data that is generated by your network, security or IT system in response to events or activity on the External Data Sources.
- “External Data Sources”** means data from network and security devices and host systems that are compatible with the Supported Device List.
- “Foundation”** means the Foundation Graded Service Tier as set out in this Schedule.
- “Foundation Plus”** means the Foundation Plus Graded Service as set out in this Schedule.
- “General Terms”** means the general terms to which this Schedule is attached or can be found at www.bt.com/terms, and that form part of the Contract.
- “Graded Service Tier”** means Foundation, Foundation Plus or Premium.
- “Hardware Sentry”** means the hardware data collection appliances used when the BT Cloud SIEM Delivery Model has been selected by you.
- “High Availability Configuration”** or **“HAC”** means the configuration of one or more pairs of SIEM Appliances to give increased resilience against failure, in accordance with Paragraph 3.1 and as set out in any applicable Order.
- “High CVSS Score”** means a CVSS score ranging from 7.0 to 8.9.
- “Incoterms® 2010”** means the International Commercial Terms, which are a series of pre-defined commercial terms published by the International Chamber of Commerce and are a trademark of the International Chamber of Commerce.
- “Initial Setup”** means the facilitation of the setup and delivery of the BT Managed SIEM Security Service as set out in Paragraph 2.4.
- “Installation Charges”** means those Charges set out in any applicable Order in relation to installation of the BT Managed SIEM Security Service or any Purchased Equipment, Customer Equipment or BT Equipment as applicable.
- “Internet”** means a global system of interconnected networks that use a standard Internet Protocol to link devices worldwide.
- “Internet Protocol”** or **“IP”** means a communications protocol for devices connected to the Internet that specifies the format for addresses and units of transmitted data.
- “IP Address”** means a unique number on the Internet of a network card or controller that identifies a device and is visible by all other devices on the Internet.
- “Local Area Network”** or **“LAN”** means the infrastructure that enables the ability to transfer IP services within Site(s) (including data, voice and video conferencing services).
- “Local Contracted Business Hours”** means the times during which maintenance of any Access Line is provided, which are Business Hours unless set out otherwise in any applicable Order.

“**Log**” means an automatically produced and time-stamped file documenting events relevant to a particular program.

“**Log Forwarder**” means a software tool designed to collect event logs from one or more SIEM Appliances and relay them to an intended destination. Log Forwarders are often used to translate Log messages from one format or protocol to another.

“**MAC Address**” means a hardware identification number that uniquely identifies each device on a network.

“**Maximum Annual Availability Downtime**” has the meaning given in the table at Paragraph 10.2.1 for the relevant SLA Category.

“**Maximum Monthly Availability Target**” has the meaning given in the table at Paragraph 10.2.1 for the relevant SLA Category.

“**Medium CVSS score**” means a CVSS score ranging from 5.0 to 6.9.

“**Minimum Period of Service**” means a period of 12 consecutive months beginning on the Service Start Date, unless set out otherwise in any applicable Order.

“**Monitoring and Management**” means the monitoring and management phase of the BT Managed SIEM Security Service as set out in Paragraph 2.6.

“**Monthly Recurring Charges**” means the monthly Recurring Charges for the BT Managed SIEM Security Service for the three full previous months divided by three.

“**Notice to Amend**” has the meaning given in Paragraph 7.1.3.

“**Patch**” means vendor provided software intended to address a specific Vulnerability.

“**Planned Maintenance**” means any Maintenance BT has planned to do in advance.

“**Playbooks**” means a collection of procedures that can be executed once a Security Incident is detected to contain the effects of the Security Incident and restore service.

“**Premium**” means the Premium Graded Service Tier as set out in this Schedule.

“**Priority 1 Security Incident**” means actionable, high risk events or policy violations that have the potential to cause severe damage or disruption to your environment.

“**Priority 1 Technical Incident**” has the meaning given in the table at Paragraph 2.6.1(f)(v).

“**Priority 2 Technical Incident**” has the meaning given in the table at Paragraph 2.6.1(f)(v).

“**Priority 3 Technical Incident**” has the meaning given in the table at Paragraph 2.6.1(f)(v).

“**Priority 4 Technical Incident**” has the meaning given in the table at Paragraph 2.6.1(f)(v).

“**Priority 5 Technical Incident**” has the meaning given in the table at Paragraph 2.6.1(f)(v).

“**Professional Services**” means those services provided by BT which are labour related services and are delivered remotely and charged at day rates unless otherwise set out in any applicable Order.

“**Qualifying Technical Incident**” means a Priority 1 Technical Incident, except where any of the following events have occurred:

- (a) the BT Managed SIEM Security Service has been modified or altered in any way by you, or by BT in accordance with your instructions;
- (b) Planned Maintenance;
- (c) you have performed any network configurations that BT did not approve;
- (d) a Technical Incident has been reported and BT cannot confirm that a Technical Incident exists after performing tests; or
- (e) you requested BT to test the BT Managed SIEM Security Service at a time when no Technical Incident has been detected or reported.

“**Reasonable Use Policy**” has the meaning given in Paragraph 2.7.3(b)(v).

“**Recurring Charges**” means the Charges for the BT Managed SIEM Security Service or applicable part of the BT Managed SIEM Security Service that are invoiced repeatedly in every payment period (e.g. every month), as set out in any applicable Order.

“**Renewal Period**” means for each BT Managed SIEM Security Service, the initial 12 month period following the Minimum Period of Service, and each subsequent 12 month period, or any period as agreed by both of us.

“**Reverse Charge Mechanism**” means the method by which customers within the European Union may self-assess for domestic VAT on cross-border purchases in accordance with Articles 194 – 199 of Council Directive 2006/112/EC.

“**Root Cause Analysis**” or “**RCA**” means analysis of data to establish the root cause of a Security Incident or issue.

“**RCA Support**” means assistance in identifying the root cause of a Security Incident or issue and may include support for customer RCA including by reporting on breaks or unwanted actions and recommending fixes or mitigating actions.

“**Security Case Assessment Notification Target**” means the time from classifying and advising you of a Security Incident to recommending a course of action to you.

“**Service Credit Interval**” has the meaning given in the table at Paragraph 10.2.1 for the relevant SLA Category.

“**Service Desk**” means the helpdesk that you will be able to contact to submit BT Managed SIEM Security Service requests, report Technical Incidents and ask questions about the BT Managed SIEM Security Service.

“**Security Event Classification Notification Target**” means the time from the BT SOC being made aware of an Event, classifying it and advising you of the classification of such Event.

“**Security Incident**” means a single unwanted or unexpected security event, or series of events, consisting of the actual or potential (attempt underway) exploitation of an existing vulnerability, and that has a significant probability of compromising business operations and threatening information security.

“**Security Incident Notification**” has the meaning given in Paragraph 10.4.1.

“**Security Portal**” means one or more webpages made available to you by BT to provide for one or more specific functions in relation to the BT Managed SIEM Security Service.

“**Service Level**” means the Availability Service Level set out in Part C.

“**Service Management Boundary**” has the meaning given in Paragraph 4.1.

“**Service Optimisation Manager**” or “**SOM**” means the security manager appointed by BT who will provide support to you in respect of certain activities as set out in this Schedule.

“**Service Option**” has the meaning given in Paragraph 3.

“**Security Posture**” means the overarching approach to security adopted within your company.

“**Service Target**” means any target that BT aims to meet as set out in this Schedule.

“**SIEM**” means security information and event management.

“**SIEM Appliance(s)**” means the SIEM Customer Equipment that will provide real-time Event Log Data generated from your External Data Sources.

“**Silent Device Alarm**” means that an alarm is triggered when a device does not send any Logs for a set threshold, therefore warranting further investigation.

“**Simple Change**” means the Simple Changes set out in the document titled Simple and Complex Change which may be accessed on the Security Portal.

“**Site**” means a location at which the BT Managed SIEM Security Service is provided.

“**SLA Category**” means the category, as set out in any applicable Order, which, in accordance with the table set out at Paragraph 10.2.1, specifies the following in relation to the BT Managed SIEM Security Service:

- (a) Availability Annual Target;
- (b) Maximum Annual Availability Downtime;
- (c) Maximum Monthly Availability Target
- (d) Standard Availability Service Credit Rate; and
- (e) Service Credit Interval.

“**SOC**” means security operations centre.

“**Standard Change**” means in respect of a Simple Change upgrades and modifications needed as a result of planned developments and security improvements.

“**Standard Default Rule Set**” means a set of rules that BT can apply to your SIEM to allow for monitoring by BT, as set out in the Customer Service Description.

“**Standard Availability Service Credit Rate**” means the applicable rate as set out in the table at Paragraph 10.2.1 for the relevant SLA Category.

“**Strong Access Control**” means the use of security controls such as two factor authentication to ensure that access to the BT Managed SIEM Security Service is strongly secured.

“**Supplier**” means the supplier of the SIEM Appliances as set out in the applicable Order.

“**Supplier Annex**” means the annex attached to the applicable Order, which sets out the Supplier details and related information for the various SIEM Appliances on offer.

“**Supported Device List**” means the list of Event Log Data sources that are readily compatible with the Supplier’s SIEM Appliances, as set out in the Supplier Annex attached to the applicable Order, and as may be amended by the Supplier from time-to-time.

“**Technical Incident**” means an unplanned interruption to, or a reduction in the quality of, the BT Managed SIEM Security Service or particular element of the BT Managed SIEM Security Service.

“**Territory**” means the country in which BT is registered as a resident for corporate income tax purposes.

“**Ticket**” means the unique reference number provided by BT for a Technical Incident and that may also be known as a “**fault reference number**”.

“**Transition Test**” means test or assessment carried out by BT to determine whether a SIEM Appliance is suitable for use with the BT Managed SIEM Security Service.

“**Urgent Change**” means in respect of a Simple Change upgrades and modifications needed as a result of unplanned activities or unforeseen activities, but which are not critical to maintaining the security of the organisation.

“**User Guides**” means the documents that set out details on how you:

- (a) access the Security Portal;
- (b) make changes to the Custom Rule(s); and
- (c) access reports.

“**Virtual Appliance**” means a software image that is issued to you by BT that you will install on your own virtual machine which will perform the same functionality as a Hardware Sentry.

“**Vulnerability**” means a software susceptibility that may be exploited by an attacker.

“**Vulnerability Management and Patching**” means the vulnerability management and patching of SIEM Appliances services set out in Paragraph 2.7.2.

“**WAN**” means wider area network.

“**WEEE**” has the meaning given in Paragraph 6.4.1.

“**WEEE Directive**” has the meaning given in Paragraph 6.4.1.
